Edmonton Gasoline Lighting Co.

Lighting Devices of All Kinds

No thoughtful man can fail to be impressed with the importance of the mechanical achievements, simplicity of design, and minimum cost of operation.

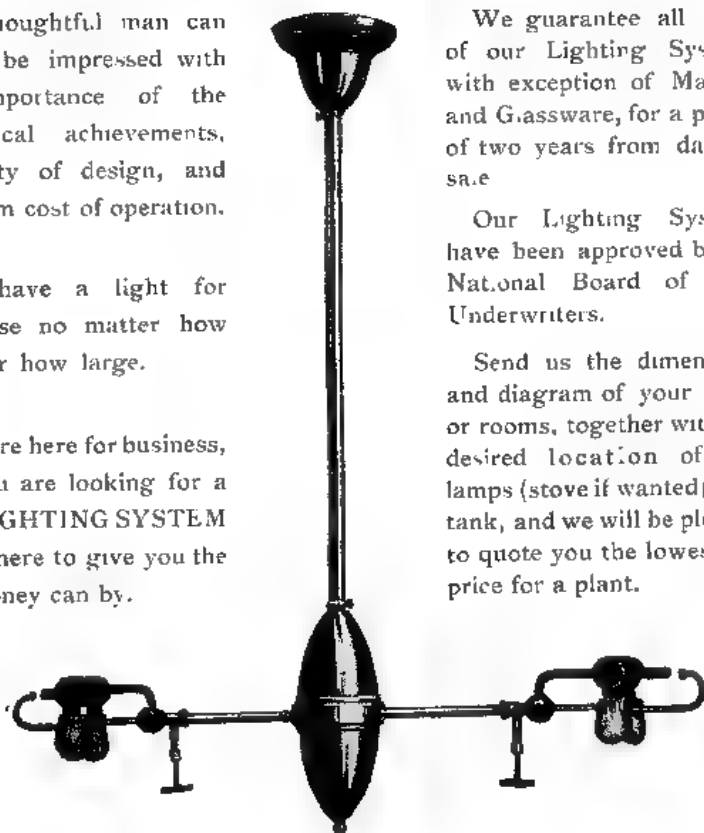

We have a light for every use no matter how small or how large.

We are here for business, so if you are looking for a good LIGHTING SYSTEM we are here to give you the best money can buy.

We guarantee all parts of our Lighting Systems with exception of Mantles and Glassware, for a period of two years from date of sale.

Our Lighting Systems have been approved by the National Board of Fire Underwriters.

Send us the dimensions and diagram of your room or rooms, together with the desired location of the lamps (stove if wanted), and tank, and we will be pleased to quote you the lowest net price for a plant.

We are not here to-day and gone to-morrow We are here to stay
and give fair treatment to everyone

Machinery Repairs

When a breakdown occurs in your factory necessitating repairs a temporary tieup is inevitable in most cases. In a busy plant tieups are expensive. We appreciate this fact and when called upon get on the job WITHOUT DELAY and remedy the trouble quickly. Try us, you will find our prices right, our workmen courteous and obliging and our service unexcelled.

An Institution of Trust

Your jeweler must be as trustworthy—not only in the sense of honesty but in reliability of judgement—as is your banker. Both act as your advisors in investments. As much may depend on the truth and authoritative representation of the value of a diamond as upon your banker's advice concerning stocks or bonds.

Our selection of diamonds is confined exclusively to perfect specimens of the most perfect and rarest gems. We import all diamonds loose from Amsterdam and thus save the duty. Our prices, therefore, are the very lowest, considering quality.

Our watch repair business is the largest in Canada. THERE'S A REASON—Expert workmanship, prompt deliveries, reasonable prices and absolute guarantees.

136 7th Avenue East, Calgary

Western Motors Limited

To claim to have the largest and best equipped Garage in Western Canada requires nothing more than a tongue to say it or the ability to pay for a space within which to print it.

To be able to prove the truth of this statement requires that the statement itself must possess the merit we claim for it.

Inspect our Plant and prove our statement to your own satisfaction

QUALITY

Our Repair Shop is without question one of the largest and best equipped—from any point of view—machinery, tools, skill or brains—in this vicinity.

Our **QUALITY WORK** costs no more than the commonplace, and in most cases less, because we have no spare time to loaf on your job, as the next one is always waiting.

EXPERIENCE

You don't pay for experiments or mistakes at this shop. Our mechanics are skilled workmen. They learned how to repair autos elsewhere—they practise their knowledge here. We pride ourselves upon the fact that we maintain the city's best equipped repair shop in point of machinery and expert mechanics.

The "Lister-Bruston" Automatic Electric Lighting Plant

The "Lister-Bruston" Plant is **For Generating Electric Current** for use in Country Hotels, Houses and Summer Cottages, by means of gasoline.

It Starts Itself It Stops Itself

By the use of our Automatic Patent we practically eliminate the expensive, bothersome storage battery.

This means **a Saving of 40 Per Cent. to the User.**

A minimum of careful attention only required.

Before buying investigate the "Lister-Bruston," an all British Machine—made up to a standard—not down to a price.

EXPERIENCE

We have grown up in the Engraving business and our experience has taught us that

QUALITY, SERVICE

is what the progressive business man wants. Your success and ours depends upon both. We have been successful in our line because we have aimed at both.

Labor enters largely into the cost of Engravings; if skilled, the cost may be more, but it would be a mistaken idea of economy to sacrifice either Quality or Service for Cost.

Copyright, Canada, 1914, by Henderson Directories Alberta, Limited

Preface

HENDERSON'S Alberta Gazetteer and Business Directory is herewith presented to its patrons and the general public with the assurance that the work is in every respect up to the standard of general excellence made possible by thoroughly systematized methods.

This volume contains a descriptive sketch of the cities, towns, villages, post offices, settlements, etc., in the Province of Alberta and Athabasca District, showing the exact geographical location of each, the railroads and watercourses upon which they are situated, or the nearest points, distance from well-known centres, the population, banks, churches, schools, telegraph, express and all matters of any importance.

In obtaining the population of the many places herein shown every possible effort has been exercised by the publishers to obtain full data. Many of the country post offices are at present so remote from railway lines that it was impossible, under the circumstances to visit them, and hence, a few do not indicate their full quota of inhabitants. In every case where it was possible to go or to have the names furnished by mail, the full population of town dwellers and the surrounding farmers, ranchers and homesteaders are recorded.

The use of the Gazetteer is becoming more general every year and its great importance as a business factor is now universally recognized. There is nothing more conducive to the development and extension of commerce than an easy means of communication such as a complete and reliable Gazetteer affords. It is an unexcelled medium for use in the sale and purchase of goods and every business and professional man is entitled to the opportunities it offers for the classification of his wares and for keeping his card where it may be found at all times by those who seek such information. It is of great value in extolling and advertising the resources of the country and a strong factor in inducing immigration.

The publishers desire to extend their thanks to the enterprising business men of Alberta whose patronage made possible the publication of this valuable work.

Very truly,

HENDERSON DIRECTORIES ALBERTA LIMITED

February 1914.

Alberta

Although the Great North West Territory had early in the fifteenth century come under the notice of navigators, it was practically left to the Hudson Bay Company (inc. 1670) to achieve that prominence which has ultimately led to the founding of a second British Empire. Following "the Gentlemen Adventurers'" early successes, that Company gradually extended its field of operations as to cover all that territory from Hudson Bay to Alaska, and from Alaska to California. During the first hundred years of its existence, many exciting times were experienced, as its officers were often called upon to defend themselves against rival trading companies.

To an Englishman named Hendry belongs the honor of being the first to traverse the mighty waters of the broad Saskatchewan. His remarkable voyage, in 1756, is chronicled among the now famous archives of the Hudson Bay Company. De Varennes followed in a similar attempt during the year 1731, but starting southerly, the "deserted" prairie then first came under notice.

Following an employee's report (by name Samuel Hearne) which disclosed the writer's travels across the Athabasca country—as it was then called—to the Arctic Circle, the Hudson Bay Company commenced to develop a chain system of trading posts or depots. The first in Alberta became known as Edmonton House which connected up with Winnipeg two years later. Later on the post at Fort Resolution, on Slave Lake, was opened up and the numerous tribes of Indians, always friendly to the company, helped to build up the fur trade which was the paramount source of income. In 1788, Roderick McKenzie established Fort Chipewyan, but it was a cousin of this intrepid voyageur who, through the immense watershed of the Peace River country, discovered the entrance to the Pacific Ocean. The river which led to that discovery was named after him, and, in a measure, from that time the interests of Alberta became cemented with the western coast.

Alberta received its christening in 1882, being named after the Princess Louise Alberta, who had previously paid a visit through the northwest. In 1905 it was created a Province under the British North America Act of 1867 which provided for the admission, from time to time, of the North West Territories.

Constitution

With the exception of the Lieutenant-Governor, who is nominated by the Governor-General for the Dominion, the Legislature of Alberta controls all institutions and offices in the Province. The various departments, subservient, annually report to that assembly which now consists of some 41 members.

Manhood suffrage practically govern the electorate. That is, if a man be a native-born, or a naturalized British subject, with twelve months' residence in Canada, and three months' residence in the Province, he can vote for a member of the Dominion or Provincial Government. Both men and women (property owners) may vote at Municipal elections.

Police

With such an extensive area as Alberta to cover, the duties of patrolling fall upon the Royal North West Mounted Police, a body of men noted for its work in subduing all elements of disorder or lawlessness. They muster about 1,100, while history hands down innumerable cases of self-sacrifice among them, and their tact and energy has saved Alberta from many a bloody strife with the Indians.

The Foothill Province

Alberta is a vast sloping plateau lying east of the Rocky Mountains and stretching northward from the International Boundary line to the 60th parallel of north latitude and eastward to longitude 110, the boundary line separating the Province from Saskatchewan. In the Canadian system of land surveys this

line is called the fourth meridian. The area, therefore, is, roughly speaking, 800 miles by 300 miles; actually the province contain 253,540 square miles or 162,755,200 acres; of this 1,510,400 acres are under water, leaving 160,755,200 acres dry land

Allowing the odd sixty million acres for the rough land of the eastern slope of the Rocky Mountains, other mountains and hills, together with other waste places that will not likely be suitable for cultivation, there still remains the large amount of one hundred million acres available for settlement. Of this amount about 1,582,200 acres are actually in crop. Thus a little over one per cent. of the arable land has been brought under cultivation, a fact which suggests the best agricultural possibilities of the province. Ralph Connor beautifully portrays the position of the province:—

"The natural features of Alberta combine the beauties of prairie and mountain scenery. For three hundred miles open and wooded plains spread out in vast level reaches, and then climb over softly rounded mounds that grow higher and sharper till they break into jagged points and serrated ridges and at last rest upon the base of the Rocky Mountains. These rounded hills that join the mountains to the prairies are called the foothills. They are so distinctive and unique a feature of the country that Alberta is known as the Foothill Province. There are valleys so wide that their farther side melts into the sky, and uplands so vast as to suggest the unbroken prairie. Nearer the mountains, the valleys dip deep and ever deeper till they narrow into canyons through which mountain torrents pour their blue-gray waters from glaciers that lie glistening between the white peaks far away."

"Here are the great ranges on which feed herds of cattle and horses and beside them the rich wheat fields that fatten the plains."

Few people have an adequate conception of the size of Alberta. To arrive at that, one must understand that Canada is one of the largest countries in the world, having an area of 3,745,000 square miles, and practically the same size as the whole continent of Europe. Its provinces are not small duchies or kingdoms like those of many old world countries. They are lusty young nations united in a strong federation, and abounding in all those natural resources that lie at the foundation of material development and progress. Alberta is one of the largest and richest of the provinces of Canada, and contains at the present time some of the largest and richest areas of untouched agricultural land in America. Its climate is tempered by the Chinook winds in the winter. The long sunny days and cool nights of the summer season are especially conducive to rapid and vigorous growth of many varieties of grain, grasses and vegetables. It is a new province with illimitable resources and opportunities. Since it was founded nine years ago, it has grown in wealth and population at an enormous rate, but its possibilities are so vast that the province has not yet passed the threshold of its wondrous and inevitable development.

Comparative Statement of Areas

Alberta	253,540 square miles
Great Britain and Ireland.	121,391 square miles
France	207,054 square miles
Germany	208,780 square miles
Austria-Hungary	241,433 square miles
New England States (Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey and Pennsylvania)	165,745 square miles

Climate and Physical Features

The climate of Western Canada has been more or less misrepresented in the literature of the country and especially those writers who have never visited the west. The climate is one of the main attractions of the province. Contrasted with that of Ontario, or the Provinces and States along the Atlantic Coast, it is clearer, drier and less changeable. Bright sunshine modifies low temperatures to an extent that they are more clement and endurable than temperatures ten to fifteen degrees higher in places subject to winter rains and fogs. The sunlight is peculiarly bright and intense even in the short days of winter, a phenomenon that has justly won the appellation of "Sunny Alberta."

The southern portion of the province has long been noted as a health resort. At Banff, west of Calgary, the hot water springs are famous throughout the world, and annually attract thousands of tourists, as well as numerous invalids for their curative qualities. Similar springs have been found west of Edmonton, where the Grand Trunk Pacific crosses the Rocky Mountains.

Northwestern Canada has too long been regarded as possessing a climate too vigorous for settlement or agriculture. It was formerly regarded merely as a fur-trading country. It is no more peculiarly the seat of the fur trade than was Ontario, Quebec or any other part of Canada or the United States. As a matter of fact, the fur trade of the Northwest has been driven into the regions beyond Alberta into the Mackenzie valley, and is as far removed from the capital of the province as the fur-producing districts are from the capitals of the countries of northern Europe.

Since the Canadian government purchased Rupert's Land from the Hudson's Bay Company, in 1870 the remotest districts of the Province have been explored by expert officials of the Geological Survey, and patrolled by the North-West Mounted Police. Ample data has been secured to prove that the climate of Alberta is as favorable to agriculture as any place in the world. Their conclusions have been substantiated by thousands of settlers who have come to the country.

There is one common flora extending from the International Boundary northward to Lake Athabasca and the Peace River, and as that flora requires a high summer temperature for its existence it indicates an even distribution of heat throughout the district during the summer months. This fact places the northern districts of Alberta, the prairies of the Peace River district, and the lands along the Athabasca in the same class as far as grain culture is concerned as those lands in the vicinity of Winnipeg, Regina or Calgary.

The production of cereal crops depends entirely upon summer temperatures and summer conditions of the climate.

The rainfall during the year is distributed so as best to promote vegetation in the growing season. The period of greatest rainfall embraces May, June, July and part of August. The latter half of August and September are dry and ideal harvest weather prevails.

The long hours of sunshine in the summer months promote steady and rapid growth and really secure a longer period of actual tissue building in the growing plants than is found in lower latitudes. From the first of June to the first of August there is but about two hours of darkness in the more northerly districts.

Chinooks

The average range of temperature and conditions of climate are materially modified by a peculiar phenomenon known as "Chinooks." These are warm winds that blow from the mountains and are caused by the condensation of the air and the compression of the moisture as the currents descend from the mountain tops liberating heat. It has been estimated that the air rises ten degrees centigrade for every 400 feet it descends.

The chinooks occur along the whole range of the Rockies from southern Alberta to the Peace River, though they are more characteristic of the south, where the name originated. They have been known to cause a rise in temperature of 60 degrees in a few hours.

Rainfall

The quantity of rain is not less important than the measure of heat for agriculture and the permanent occupation of any country. After the Bad Lands and the Coteau of the Missouri are passed, the level of the prairies descend and the rainfall increases. Cactus and sage bush give place to the nutritious bunch grass of the southern Alberta ranch lands, and as we proceed northward, to heavier and taller grass and forest. No increase of temperature is observed, but only an increase in moisture, resulting in more equable temperatures, which accounts for the fact that the bison sought winter pasturage and shelter on the grassy stretches and woodland belts of the Peace and Athabasca Rivers.

The rainfall is copious and comes in the greatest quantity during the growing season when it is most needed, and ceases just when the harvest is due.

There are no rains or slushy weather in the winter season. In the southern portion of the province snow falls but does not stay. Horses, cattle and sheep graze out all winter. They scratch the dry snow off the grass and grow fat. In the northern portion the snow falls in depths varying from six to eighteen inches and remains from the beginning of December to the beginning of April. Spring opens at the same time along the immense line of plains from the Mackenzie to Montana.

Physical Features

Absolutely level plains form no great proportion of the surface of the province. It is mostly undulating country diversified by forests, lakes and streams. The whole province may be roughly divided into three great natural divisions—Southern Alberta, Central Alberta and Northern Alberta.

Southern Alberta is open rolling prairie trenched by deep river valleys. It extends north to the Red Deer River. Along its western side extends the Foothills. Here and there in the plains are found hills rising from 3,000 to 4,000 feet high.

Central Alberta occupies the famous valley of the Saskatchewan. It is park-like country with numerous lakes and streams. The timber, consisting of poplar, spruce and tamarac, grows in considerable quantities along the lakes and rivers and supplies a large amount of the building material necessary for the settler.

Northern Alberta is the region of great rivers, lakes and forests, besides vast tracts of open prairie like the famous Grande Prairie and the great open terraces of the Peace River valley.

Rivers

The Province of Alberta is the source of two of the four great river systems of the North American continent—the Saskatchewan and the Mackenzie. The Saskatchewan is divided into two great arteries, one of which, with its tributaries, the Bow, Belly, St. Mary, Waterton, Old Man and Red Deer, waters the south, while the north branch with its tributaries, the Brazeau, Clearwater, Sturgeon, Battle, Blindman and Vermilion, waters the great central plains.

The mightiest rivers are in the north. The Peace and the Athabasca are the two greatest arteries of the Mackenzie system which drains a territory of 1,000,000 square miles. The Peace drains 117,000 and the Athabasca 60,000 square miles of territory. The Hay River, beyond the watershed of the Peace, drains 26,000 square miles.

Natural Vegetation

The natural vegetation of Alberta is luxuriant and varied, and not a single species of plant life indicates arctic or boreal tendency.

Wild plums, choke cherries and June berries are abundant in the Peace River. Strawberries are abundant in the northern slopes and woodlands. Black currants, red currants and gooseberries grow in profusion. Raspberries spring up everywhere where the forest and shrubbery is destroyed by fire.

No natural feature of Alberta strikes the stranger with more agreeable surprise than the wonderful variety and luxuriance of the native grasses. Whether for pasturage or hay they are alike serviceable. There are scores of species which in many regions grow so tall and thick that the traveller finds difficulty in making his way.

Roughly classified, the wild fodder vegetation falls into three divisions, namely: The true grasses, the sedges and rushes and the legumes (peas and vetches). Ninety-six different varieties of grasses have been identified, of which forty-six varieties make excellent hay. Of the sedges and rushes there are at least ninety-four varieties, many of which make good hay and all make splendid pasture during the early spring and summer. The grasses naturally fall into groups as regards their habitats. The true grasses are found on the uplands mixed with wild pea vine and vetches. The great heat of August and September rapidly cures these plants on the ground or upon the trees to which the peas and vetches cling and converts them into nutrient winter pasture or hay. The sedges grow on the lower lands and in the marshes.

Climate and Agriculture

The value of climate in relation to agriculture is as important as the chemical nature of the soil. Good as the soil is, it never would have won the supremacy in grain production were it not for the purity of the air, temperature and equilibrium in precipitation. The value of pure air to successful agriculture is almost as important as it is for the health of the population. It prevents the rapid decay and transformation of vegetable matter in the soil and also the too rapid transformation of inert or stored fertility, thus virtually precluding the waste of nature's capital.

The cold temperature of the summer nights is the cause of the large relative yields and unexpected quality of the grain. In the judgment of the best agriculturists the yield would be lessened proportionately to an increase in the temperature of the summer nights.

The relatively light precipitation is a further boon to the Alberta farmer. The rainfall throughout the province varies from fifteen to twenty inches, which with forty inches in the British Isles or thirty inches in Ontario, seems insufficient, but it is enough to grow good farm crops when intelligently tilled, and not too much to leach the soil. If the quantity of rain were distributed equally throughout every month in the year the comparatively light fall would be insufficient.

The uniform fertility of the soil of Alberta cannot be exaggerated. It consists of a marly clay subsoil varying from a few feet on the hills and ridges to

great depths on the plains. Overlying this is the thick mantle of black or brown vegetable mould. The measure of its value is the amount of nitrogen, potash and phosphoric acid it contains, or in other words, its producing power. Like the whole of the prairie region of Western Canada, the country has not been subjected to serious geological disturbances within recent time, and consequently the decay remains of the luxuriant vegetation of centuries is compounded in the soil.

Alberta Wheat Field

Cereal Production

Alberta is the last great wheat belt of the American continent. The States of the Union that formerly produced wheat are now producing corn almost exclusively. Ohio, Indiana, Iowa and other States of the Middle West will always remain the corn belt of the continent, while the Provinces of the Canadian Northwest will as surely remain the great wheat producers. The whole province lies south of the wheat line, which bends from the Mississippi northward to the valley of the Peace, reproducing during the period of vegetation the summer heats of New Jersey and Ohio.

The wheat areas of the world are becoming exhausted or utilized for other crops. Consumption of wheat is increasing at a greater rate than production and an era of high prices is in sight. This scarcity is Canada's opportunity, and she is quickly taking a leading place in the wheat producing nations of the world. The problem of our agriculture is the problem of supplying bread to the ever-increasing millions of America and Europe, and while marvellous strides have been made in the facilities for transportation of agricultural products, yet the real solution of the problem is bringing the population to the food rather than the food to the population. The vision that meets us here is one of ample land awaiting man and of possibilities of agricultural production which can be realized only by augmented immigration. Before and above all

of what transport has done, and may yet do to carry agriculture across the sea, the more reasonable prospect is the settlement of these wide areas by a population resting on the soil which this great province offers.

The increase in wheat production in Alberta in the last few years is but an index of the great development that is bound to follow in the next decade. Below is given a statement showing the rapidity with which our wheat industry is advancing. The truth is that our wheat lands have been discovered, and nothing can stem or turn aside the stream of immigration that has set in from the United States and the Homeland. Those who come now may get cheap or free lands according to their means and choice of location, and will soon be in a position to take advantage of the era of prosperity that seems assured for the next few years. The land is going quickly, but there are millions of acres still left as productive and fit for settlement as any already taken, and which will soon be reached by railways.

Alberta has christened a new and superior grade of wheat with her own name, "Alberta Red." It is a winter wheat and has so many distinctive and excellent milling qualities that a new name was necessary to describe it.

It can be grown in any part of the province, and by this means the farmer is able to divide his work into two seasons: a part of his farm being sown to fall wheat, and the other to spring wheat the following season. It can be sown at any season of the year and pastured until the fall and will yield a splendid crop the next year. As soon as the crop is cut the stubble may be sown and disced for the succeeding crop without plowing. Cases are frequent where three crops have been cut from one sowing, the second and third being volunteer crops. In 1907, a field of 900 acres near Lethbridge averaged 17 bushels and graded No. 1 northern, and it was only a volunteer crop which cost nothing to put into the ground.

Winter Wheat

Winter wheat has been successfully grown in the province in a small way for eighteen or twenty years, but it was not until comparatively recent years that any extensive area was sown to it. With the introduction of "Alberta Red," a new area for winter wheat came in, and now the land cannot be broken fast enough. The acreage sown to winter wheat has more than doubled each year for a number of years. So far there has been practically no winter killing where the grain was properly put in. Turkey Red wheat from Kansas has been introduced and grows such a superior sample here that it was rechristened "Alberta Red." It is now shipped back to Kansas for seed.

Winter wheat has been successfully grown at Edmonton and at Fort Vermilion, fully four hundred miles northwest of Edmonton. The wheat is in great demand on the English market on account of its superior mixing qualities. In the southern portion of the province there has never been a failure where winter wheat was put in properly prepared land. Each year sees winter wheat grown with increasing confidence over an ever-widening area.

Spring Wheat

What has been said of the suitability of the province for winter wheat is equally true regarding spring wheat. The yields have been uniformly good, and when compared with those obtained in the neighboring States to the south of the International boundary line have been uniformly high. An average of 20.62 bushels per acre over ten consecutive seasons is no mean average for the whole of the Province. When Alberta is compared with the spring wheat States of the Union and where irrigation is not employed, it will be seen that the yields are much larger and that it is better adapted for wheat culture.

Alfalfa, Clovers and Timothy

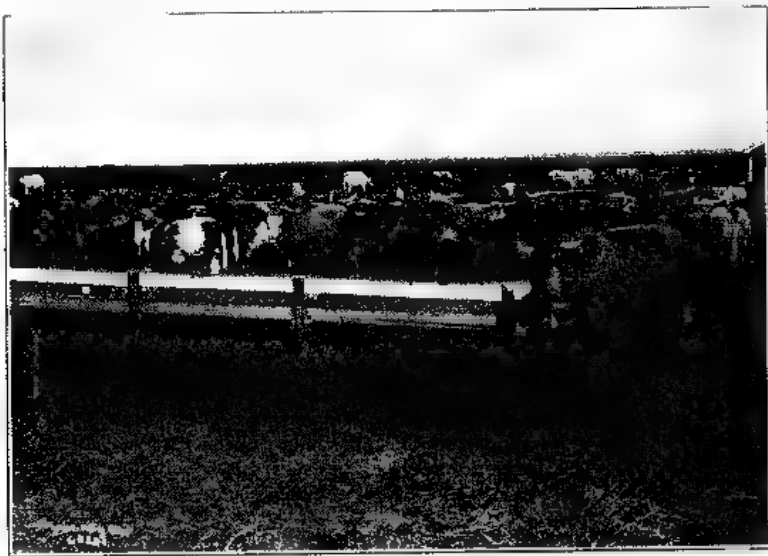

The experience of Kansas is apparently being repeated in Alberta. The wheat lands of Alberta have attracted thousands of American farmers and have made them rich. The wheat barons have flourished beside the cattle kings. The attraction of wheat has been the real colonizing factor and the production of it has done the pioneer work in soil cultivation that was necessary to lay the basis of permanent and successful agriculture. It has given the land tilth, permitting the successful growing of other crops such as sugar beets, roots and fodder crops. But when the wheat farm is done growing wheat the farmer knows that its fertility must be maintained and that alfalfa is the crop that feeds the soil and produces a large return of hay as well. The profusion with which the wild vetch and pea grow in all parts of the province proves at once the adaptability of the land to the production of this crop. It is not with the wheat grower alone that alfalfa is growing in favor. The rancher sees his range restricted and must do something to provide pasturage and fodder for his herds. The best crop for this purpose has proved to be alfalfa.

The growing of alfalfa promises to be the great crop of the future, especially in the southern part of this province. It is particularly fitted for cultivation under irrigation and does excellently on non-irrigated lands as the results of the experiments carried on at the Dominion Experimental Farms at Lethbridge and Lacombe last year prove, where an average of three tons of cured hay has been obtained.

The time is close at hand when most of the live stock produced in Alberta, and now marketed in a more or less unfinished condition, will be sent to the rich alfalfa meadows east of Calgary, there to be set into prime shape before being exported or slaughtered. A home market at highly remunerative prices will thus be made available for all the fodder that can be produced on irrigated lands, with the additional advantage of having the feed consumed on the irrigated farm and ultimately returned to the soil that grew it, thus maintaining its fertility.

The certainty of the irrigated lands of this district producing alfalfa as a leading crop opens up a vista of possibilities in many directions. During the early years of settlement in this Province, the claim was made that Alberta possessed all the natural conditions to make it one of the leading live stock countries in the world. When farmers invaded the ranchers' domain later on, and numerous crops of winter wheat and other coarse grains were raised year after year, Alberta's fame as the foremost stock country faded, and the world henceforth knew it only as a great crop-producing district. The advent of alfalfa will again bring the live stock industry to the front in southern Alberta; history thus repeating itself.

There is an enormous area of country lying west of Calgary that will always be devoted to the raising of live stock, namely: the foothills. Owing to the difficulty of grain raising there, it is reasonable to suppose that the mature steers will be brought to the central market at Calgary and Lethbridge and shipped out again to the alfalfa meadows of the irrigation belts to be finished prior to export.

Alberta's Live Stock

Live Stock

Many conditions favorable to the live stock industry are peculiar to Alberta. First, there is abundance of grass for pasturage and hay. The grasses are highly nutritive and excellent beef producers, while the wild clovers, vetches and peas are unexcelled for the production of milk.

Second, the climate is dry in the cold season, and cattle, horses, sheep and pigs can be wintered without the cost of stabling. An open shed, the shelter of a clump of trees or a straw stack is sufficient for the hardest winter. To those living in wet winter climates such favorable conditions are almost incredible, but in Alberta it is found that the more stock are reared in the open air the stronger and hardier is the type produced.

Third, the fodder straws—wheat, oats and barley—have a higher food value here than in any other part of the world.

The range breeders are organized into two associations, one is called the Western Stock Growers' Association with headquarters at Macleod and the other, the Central Alberta Stock Growers' Association, with headquarters at Stettler. The membership of both consists principally of growers of beef cattle. The former consists of the big ranchers whose ranges are south of the main line of the Canadian Pacific Railway. They usually run herds of from 500 to 25 000 cattle. These men are beginning to feel the encroachment of the rapid agricultural development in the vicinity of their ranges and are asking the government for a more certain tenure of their grazing leases.

The Central Alberta Stock Growers' Association is comprised of the smaller ranchers operating between the Battle and the Red Deer rivers. They usually own herds of from 50 to 2,000 cattle. Some of them operate on leased land, but the majority run their herds on occupied lands.

Winter fattening among the farmers for the spring market is growing and proving a profitable undertaking. With increasing population there is a greater demand for beef for home consumption, and to meet this demand a number of abattoirs have been established in the province, the largest of which are those of P. Burns & Co., Calgary, and the Canadian Swift Co., Edmonton.

The interests of the live stock men generally are under the supervision of a government official, the Live Stock Commissioner for Alberta. He pays particular attention to stock inspection and shipping facilities of the railways.

Poultry and Dairying

There is a large field in Alberta for the industrious poultry raiser. A few hundred chickens will yield a good income. No less than \$400,000 worth of poultry and eggs were imported into one Alberta city by jobbers alone during one year for distribution at Alberta and British Columbia points. The climate is ideal for poultry raising and the markets are the best in Canada. Turkey raising is becoming an industry of importance. Thousands of these birds are grown and fattened for the market in the coast cities, and thousands of dollars are brought into the country every year through this business alone. Where large areas of wheat stubble may be utilized for forage ground, the expense of putting turkeys on the market is very small indeed.

For many years the cattlemen of Alberta devoted their attention almost exclusively to the beef breeds, but of late years farmers are introducing dairy herds of Ayrshires, Jerseys, Holsteins and Guernseys. All the necessities and circumstances necessary to the success of dairying are present in the Province of Alberta. Abundance of nutrient grass, wild vetches and peas in summer, hay and grain in winter, pure water and a healthful climate constitute the natural adaptability of the country for dairying. These, combined with the advantages of a growing home market in British Columbia, are the conditions which make this industry one of the safest and most remunerative the farmer may follow in this province. Within the last five years the dairy industry has become firmly established especially in central and northern Alberta, and the output of the creameries and home dairies is increasing year by year. Natural advantages, technical education along the best scientific methods under government supervision is bound to make Alberta as famous in the production of butter as Denmark and Wisconsin.

A few years ago the dairymen of the province became dissatisfied with the private creameries which were then in operation and asked the government to institute some system of governmental control and management. Eventually a chain of government co-operative creameries were established. Last year there were 24 government creameries in operation. These institutions are under the control of the patrons who constitute a co-operative creamery association. A board of directors looks after the interest of the patrons while the government undertakes the manufacture and sale of the butter. For this purpose the Provincial government maintains at Calgary the largest and most important dairy station in Western Canada. At the end of every month each patron is credited with the butter equivalent of his cream and is advanced 20 cents per pound. When the total output of the season has been disposed of by the government, the patrons receive the balance due for the summer's product of butter. An officer of the government, the Dairy Commissioner for Alberta, has charge of the manufacture, storage and sale. By means of the cold storage facilities at Calgary the government is in a position to await a favorable turn of the market and realize the maximum for the patrons of the creamery association. The government charges merely the cost of manufacture and sale. The result of this policy of co-operation has been the building up of an extensive export business in winter and advertising the province as a splendid butter country, a condition that benefits the home dairies and private creameries.

Irrigation

A considerable area of southern Alberta is subject in some years to drouth. In order to insure against the absence of the necessary rainfall irrigation is resorted to and has most satisfactory results. The tendency has been to acquire the easily irrigable lands in the valleys either by homestead entry or by the purchase under the irrigation laws, or by both means, and to secure water rights from the nearest stream. The result has been that the equally productive bench lands have remained undeveloped owing to the higher cost of bringing water to them. Usually each farmer owns his own system of ditches but gradually the farmers are beginning to realize that better results can be obtained by co-operation in building larger ditches following a higher level from which laterals may be run out to the lands of each co-owner. By this means a larger acreage is coming under cultivation and the proportionate cost is less than by independent systems.

The quantity of irrigable lands which may be used by independent farmers is small compared with the large areas that can be irrigated only by comprehensive engineering schemes, consequently the government has adopted the policy of disposing of large tracts of land to companies subject to agreements to construct works for irrigation of not less than fifty per cent of the area sold and to supply water to the settlers on terms satisfactory to the government or in specified agreements.

The largest of these companies is the Canadian Pacific Railway. This company has undertaken the construction of the largest irrigation system in America. About one third of the system has been finished and the lands placed on the market at satisfactory and very attractive terms. The tract covers over 3,000,000 acres, extending from the city of Calgary in a strip forty miles wide in the Bow River valley for 150 miles. Settlers are flocking to this region. The company provides ready-made farms for settlers and maintains demonstration farms for their instruction. Through the administration department of the Canadian Pacific Railway the company breaks, seeds and fences the land for the buyer in advance of his settling upon it, and in many other ways promotes the welfare of the new settler.

The Southern Alberta Land Company has been given permission to purchase 380,000 acres of these lands between the Bow and Belly rivers and the right to divert 2,000 cubic feet of water per second from the Bow River at high and flood stages which is stored in Lake Macgregor for the season's requirements. The quantity of water is sufficient to irrigate at least 300,000 acres of the company's grant.

The Alberta Railway and Irrigation Company is the pioneer of irrigation in Western Canada. Their land lies along the St. Mary, Belly and Milk Rivers, and from which the water is obtained. In 1902 they were given the right to purchase 500,000 acres in addition to their railway grant land.

Lands are sold at \$5 per acre without water rights, and \$30 with such rights plus an annual charge of \$1 per acre.

A very profitable beet sugar industry has developed in this district. Over 400,000 tons of beets are consumed annually at the sugar factory at Raymond. The lands of this company, like those of the Canadian Pacific Railway, are developing rapidly. Through the agency of irrigation these portions of the province are becoming closely settled mixed farm district and rapidly increasing in wealth and public improvements.

Another tract of 9,000 acres has been sold to the Aylwin Syndicate, comprising townships 14, 15, 16 range 14, and township 14, range 16, west fourth meridian, subject to the construction of works that will irrigate at least quarter of this area.

Water and Fuel

The water supply is ample for all the needs of settlement. There are numerous rivers, and innumerable creeks and lakes. Thousands of beautiful crystal streams rise in the foothills on the west side of the province and thread their course eastward over the plains to join the larger rivers. In the higher regions these streams generally teem with mountain trout. Otherwise, water is found here as it is in any other country, by boring or digging for it. Invariably the water found in Alberta wells is sweet and wholesome. There are no poisonous springs, and horses and cattle have roamed the plains in the early days from one end of the year to the other and have never been known to suffer from a water famine. The concerted opinion of surveyors, travellers and ranchmen is testimony to the fact that not a spring or lake has been found in the province where horses or cattle refuse to drink. Wells sunk to a moderate depth anywhere in the drift which covers the whole country will contain good, sweet water. Deep wells which penetrate the underlying clay sometimes yield mineral waters which are not so good for general use.

There can never be a fuel famine in Alberta as long as there are miners left to dig coal out of the earth and cars to haul it to the consumers. In hundreds of places it is not necessary to go far down. It can be dug out of the river banks. Almost every river in the province cuts through seams of coal. Alberta is one of the greatest storehouses of coal in the world. Coal beds extend from the plains to the mountains and comprises many grades, varying from lignite, bituminous to the best anthracite varieties.

The Province of Alberta is liberally supplied with coal areas.

One of Alberta's Coal Fields

East of the foothill area lies a great extent of coal bearing rocks which are comparatively undisturbed. The coal in this region is well suited for domestic use, and as it is within the settlement belt, where wood is scarce, a demand for it is assured. They extend north from near the International boundary to near the Peace River, covering an area of at least 10,000 square miles.

Another coal formation occupies the southeastern border of the province with an area of 5,000 square miles, the seams in this are of more value in the southern portion than farther north or east. The principal mines in this area are to be found near Lethbridge.

Below is given an estimate prepared by the Geological Survey of Canada of the coal areas in Alberta and their estimated contents. It indicates that the known stores of coal may supply the province, the whole of the prairie region and the western states with coal for many centuries

Estimate of Total Content

Kinds of Coal	Billions of Tons	Square Miles		Million Tons
Bituminous	Coleman area	45		2,000
	Blairmore-Frank	50		1,500
	Livingstone	60		1,500
	Moose Mountain	15		250
Bituminous and Anthracite	Cascade	40		1,200
	Cascade			400
	Palliser	6		20
	Costigan	12		60
Anthracite	Bighorn	60		1,400
	Belly River area	3,500		10,000
	Foothills	2,000		11,000
	Edmonton formation	10,800		60,000
Lignite		16,588		89,330

In some parts of Alberta almost every rancher or farmer owns a coal mine, and in very few places are the farmer forced to haul coal long distances. The projection of the Grand Trunk Pacific and Canadian Pacific Railways into the country west of Edmonton has encouraged prospecting in that region with the result that several mines of good steam coal have been discovered and opened up.

The Dominion Government has provided for a cheap supply of coal for the settlers. By a clause in the Dominion Lands Act, all coal leases contain a provision whereby settlers may obtain their coal at the mine for \$1.75 per ton.

Timber

In addition to coal there is a good supply of wood in many parts of the province, which is taken advantage of in many ways by the farmers and settlers. The eastern slopes of the Rocky Mountains are well covered with timber of sufficient size for commercial purposes. This timber follows the streams and valleys out from the mountains. In the park country, which covers the most of the central and northern portions of the province, considerable timber is found fit for commercial purposes; and numerous sawmills exist, principally on the streams and rivers. The logs are floated down these streams from the timber limits and are held in booms at the various mills. The lumber from these mills, together with the product of the British Columbia mills, which can be obtained at well stocked yards in every town, puts lumber within easy reach of every settler. Trees of the following varieties are found: Poplar, aspen, birch, elm, cottonwood, willow, maple, ash, spruce and pine.

The homesteader is allowed to cut a certain amount of lumber from government lands for building purposes. Spruce, poplar, birch, pine and fir are the different woods cut for commercial purposes. In the park country there is ample timber of sufficient size for the construction of log buildings, and in many districts miles and miles of rail fencing are to be found. There is also an abundance of wood for fuel in the same districts. These conditions make it very easy for the homesteader to get started. On the open prairie trees grow very readily and the Dominion Government has established a large nursery for the propagation of trees, which are given to settlers free, provided they comply with certain conditions regarding cultivating and caring for them. In this way wind breaks around farm buildings are springing up rapidly, and it will not be long before the open prairie will be converted into a park country. Once the trees become established and fires are prevented from touching them, the growth is simply wonderful.

Schools

The province has an excellent system of education, and liberal aid is given by the state towards securing the highest advantages in keeping up the standards of work and the professional qualification of teachers. School districts are established by the government on application of the ratepayers as soon as there are eight children in a school section. The work in the public schools is divided into eight standards. The three upper standards are devoted to the work ordinarily carried on in the high schools of the eastern provinces of Canada and the same as carried on in the upper standards of the state schools of the United States.

School districts are organized by the government, but are controlled and maintained by the ratepayers. In addition to the local rates levied by each district, the government grants aid based upon school attendance, number of days school is kept open in the year, the grade of teacher employed and upon the character of the work as reported upon by the state school inspector. The government grants to the public schools constitute 66 per cent. of their maintenance.

The University of Alberta opened its doors in October, 1908, and since that time has made rapid and satisfactory growth.

Roads and Bridges

Good roads are indispensable to the progress of agriculture. Every settler and farmer is intensely interested in good roads which raises the value and increases the profit of everything he produces. Since the province was organized nine years ago, the government has spent the largest sums of public money upon roads and bridges, and have vastly improved the means of local transportation.

Telephones

Alberta was the first province in Canada to own and operate its own telephone system. When the province was organized in 1905, the telephones were controlled by a private corporation. The rates were high and the service unsatisfactory. As soon as it was practicable, the new government began to build its own trunk lines, rural lines for farmers and town exchanges. This action was such a blow to monopoly of the private corporation that the government was finally able to purchase the corporation lines at a reasonable price, and now the province owns and operates its own telephones at cost and in the interests of the people.

Demonstration Farms

In 1910 the Government decided upon the establishment of six demonstration farms at various parts of the province, for the purpose of demonstrating agricultural possibilities and of ascertaining the specific methods of crop culture and soil tillage suitable to the respective districts where the farms are to be situated. These farms have enlightened agriculturists to the practical possibilities of land culture, and reflect great credit to all concerned.

Short courses in agriculture, comprising lectures and demonstrations in the subjects of grain, soil, weeds, poultry, dairying, breeding and feeding of live stock, are held annually during the winter seasons at different points throughout the province. The session lasts from one to two weeks and is attended by large numbers of farmers, who thus have the benefits of technical education brought to their doors.

Railways

Three transcontinental lines traverse the province from east to west. The Grand Trunk Pacific, the Canadian Northern and the Canadian Pacific Railways have lines that cross the province, converging at Edmonton, the provincial capital. The main line of the Canadian Pacific Railway passes some distance south of the middle line of the province through Calgary and reaches the Pacific Ocean by the Kicking Horse Pass. In the extreme south there is another line of the Canadian Pacific Railway going through the Crow's Nest Pass.

Hudson's Bay Railway

The Federal Government is keenly interested in the transportation problem of Alberta, and is committed to the construction of a railway line from the Alberta systems to the Hudson's Bay. This project provides a new and shorter freight route to the European markets, and, according to a statement made in the House of Commons by the late Minister of Railways, will save five cents per bushel on all wheat shipped by this line. The appropriations for the construction of the road have been voted by the Dominion Parliament.

At present most of the grain grown in Alberta goes east by way of Winnipeg and the Great Lakes ports. The Canadian Pacific Railway are now giving a rate to Vancouver, which makes it possible to ship wheat and other grain from the Pacific Coast via Cape Horn or the Isthmus of Panama by train to the Old Country markets. Several shipments have been made this way and are believed to be but the forerunners of an extensive grain trade. Large mills are in operation at Calgary and Edmonton for grading wheat.

Alberta is an agricultural country, and though its future history will witness a wonderful development in those industries dependent upon extensive mineral resources, the calling of the farmer, embracing grain culture and live stock breeding, will never fail in a land that possesses the soil and climate of the Foothill Province of the West.

The importance of Alberta to Canada lies in the fact that it has land in limitless quantity for the settlers coming from every part of the Empire and the United States. Railway development in Alberta will open more agricultural land than is possible in any part of America. The trek of the American farmer after the golden sheaf has begun and will continue until all the homestead and cheap land is taken up.

Agriculture today is witnessing a great revival. Irrigation is sharing its importance with applied physics. As the nineteenth century was the century of the factory, so shall the twentieth be the century of the farm. Land will attain a fixed value to the extent that its attractions shall overcome the tendency towards city life. Nowhere will the new agriculture be attended with more fruitful results than in the new province of Alberta.

PUBLIC WORKS

The following abstracts from the 1912 annual report of the Deputy Minister serve to illustrate the progress made in that department.

Bridges

During the year there were 472 bridges dealt with by the department. Of these 126 were repairs and 337 were new wooden bridges constructed during the year. There were also six steel bridges completed and nine were begun but not carried to completion.

The most important structures which were completed during 1912 are: Steel bridge over Pembina River at Belvedere consisting of two 125 ft. highway spans; bridge over Little Bow River, east of Carmangay, consisting of an 80 foot highway span; also bridge over Little Red Deer River, west of Olds, consisting of 100-foot highway span with four 20-foot pile bent approaches.

Work was commenced on the following important structures, but they were not completed during the year 1912: Steel bridge over Sheep Creek at Okotoks, consisting of two 200-foot highway spans, in concrete substructure; steel bridge over Battle River, north of Chauvin, consisting of a 110-foot highway span; steel bridge over Battle River, north of Edgerton, consisting of a 125-foot steel span, steel bridge over Little Red Deer River, west of Innisfail, consisting of a 100-foot highway span with four 20-foot pile bent approaches, also steel bridge over Medicine River, north of Markerville, consisting of a 100-foot steel span with two 20-foot pile bent approaches.

Ferries

The total number of ferries in operation in the Province of Alberta in the year 1912 was 49. The ferry scow formerly operated on the Pembina River at Belvedere was floated down and installed on the crossing west of Edison.

New ferry scows were built and put in operation on the Pembina River at Entwistle and on the North Saskatchewan River at Rocky Mountain House. These ferries were carried out in the high water and it was impossible to recover them.

The following new ferries were installed:

1. Macleod River, north of Thornton.
2. Red Deer River at Drumheller.
3. Bow River in section 14-18-18-4.
4. Beaver River in township 63-4-5-4.
5. Macleod River, north of Peers.

A new scow was built for the North Saskatchewan River north of Bruderheim, but was not put in operation.

The following is a complete list of the ferries in operation in the province.

1. Red Deer River at Steerford.
2. North Saskatchewan at Brosseau.
3. North Saskatchewan at Desparlais.
4. Pembina River at Holmes Crossing.
5. Bow River, southeast of Gleichen near Indian school.
6. Red Deer River at Dorothy.
7. Oldman River near Summerview.
8. North Saskatchewan River at Victoria.
9. North Saskatchewan River at Big Island.
10. Red Deer River at Garrington.
11. North Saskatchewan River near fourth meridian.
12. Athabasca River at Athabasca Landing.
13. Red Deer River near Trochu.
14. Pembina River in section 19-60-1-5.
15. North Saskatchewan River at Shandro.
16. North Saskatchewan River at Hopkins Crossing.
17. Red Deer River at Fieldholm.
18. North Saskatchewan River at Rocky Mountain House.
19. Peace River at Peace River Crossing.
20. Narrows of Lac Ste Anne.
21. North Saskatchewan River north of Kitscoty.
22. North Saskatchewan River north of Lamont.
23. Pembina River at Sunnibend.
24. Pembina River in Sections 26-56-7-5.
25. North Saskatchewan River at Lamora's Landing.
26. Bow River, south of Strathmore.

27. Peace River at Dunvegan.
28. South Saskatchewan River at Bow Island.
29. Pembina River at Entwistle.
30. Belly River north of Coaldale.
31. Red Deer River at Carbon.
32. Red Deer River, northeast of Brooks.
33. Big Smoky River on Edson trail.
34. Little Slave River at Sawridge.
35. Bow River between sections 27 28-15-16-4.
36. Beaver River in sections 15-62-2-4.
37. Bow River at Rocky Buttes.
38. North Saskatchewan River at Moose Telegraph Station.
39. Pembina River at Lunnford.
40. Athabasca River on Edson trail.
41. Baptiste River on Grand Prairie trail.
42. Little Smoky River on Edson trail.
43. Bow River in section 13-17-17-4.
44. Macleod River in section 10-54-16-5.
45. Red Deer River at Drumheller.
46. Bow River in section 14-18-18-4.
47. Pembina River between sections 4 9-60-15.
48. Macleod River sections 2-55-14-5.
49. Beaver River township 63-4|5-4.

COAL MINES

The reports which have been received by the Coal Mines Branch from the different mines operating in the province, show that the output for the year 1912 was 3,446,349 tons. This is the largest output that has yet been produced in the province and is an increase of 409,592 tons over the year 1910 and an increase of 1,751,785 tons over the year 1911.

During the year 46 new mines were opened up and are being developed, the total number of mines operating in the province at the end of December being 243.

It will be noted from the following tables that the output for the year 1912 shows an increase of 1,751,785 tons over the year 1911, and an increase of 409,592 tons over the year 1910. The small output for the year 1911 was due to the fact that operations were discontinued in the large mines in the southern part of the province owing to a strike which extended for a period of practically eight months.

Annual Report 1912

Year	Output in tons for N W T. (Alberta and Saskatchewan)	Output in tons Alberta
1901	346,649	.. .
1902	510,674	.. .
1903	622,939	.. .
1904	782,931	.. .
1905	811,228
1906	1,385,000
1907	1,834,745
1908	1,845,000
1909	2,174,329
1910	3,026,757
1911	1,694,564
1912	3,446,349

The above figures show that there has been an increase during the year 1912 of 103.37 per cent. over the year 1911 and an increase of 18.48 per cent. over the year 1910.

Classification of Outputs During the Year 1912

	Tons
Lignite Coal	1,341,389
Bituminous Coal	1,926,371
Anthracite Coal	178,589
Coal used in coke production	170,818
Coke produced	105,634
Briquettes produced	90,000

The above table shows there has been an increase in the output of lignite coal 39.04 per cent. over the year 1911, and 52.78 per cent. over the year 1910, and an increase in the output of bituminous coal of 136.48 per cent. over the

year 1911, and 1 55 per cent. over the year 1910, and an increase in the output of anthracite coal of 122 90 per cent. over the year 1911 and a decrease of \$1 78 below that of the year 1910.

Summary of Statistics for Year 1912

Number of mines at present in operation.....	243
Number of new mines opened.....	46
Number of mines abandoned.....	8
Number of tons of coal mined.....	3,446,349
Number of tons of coke produced.....	105,684
Number of tons of briquettes produced.....	90,000
Average number of persons employed inside mines.....	4,861
Average number of persons employed outside mines.....	1,800
Average number of persons employed inside the mines during Dec..	5,279
Average number of persons employed outside the mines during Dec..	1,981
Number of separate accidents causing loss of life.....	21
Number of deaths caused by accidents inside the mines.....	16
Number of deaths caused by accidents outside the mines.....	5
Number of serious accidents inside the mines.....	33
Number of serious accidents outside the mines.....	5
Number of slight accidents inside the mines.....	52
Number of slight accidents outside the mines.....	5
Number of Mine Manager's certificates issued.....	12
Number of Pit Boss' certificates issued.....	12
Number of Fire Boss' certificates issued.....	37

The Department of Public Works in their annual report, deals exhaustively on all matters concerning the coal mining areas, but the foregoing abstract fully display the wonderful development that has taken place in a province but scarcely 20 years old

AGRICULTURE

Abstracts from Report of Department of Agriculture Summary of the Acreage and Yields of the Leading Grains During the Last Twelve Years

	Year	Crop area in acres	Total Yield in bushels	Average Yield per acre	Average Yield
Spring Wheat ..	1912	957,874	17,434,774	18.20	
	1911	757,493	15,730,238	20.75

Alberta's Agricultural Products and Live Stock in 1912

Extracted from special report by Charles Hotchkiss, Esq., Publicity Commissioner for province, September, 1914:

	Acres	Bushels	Value
Winter Wheat	127,200	2,607,600 @ 60c.	\$ 1,465,560
Spring Wheat	855,000	18,040,500 @ 60c.	10,824,300
Oats	1,196,000	35,880,000 @ 25c.	8,970,000
Barley	262,200	6,958,060 @ 45c.	3,131,217
Flax	67,583	719,470 @ \$1.10.	791,417
Rye	17,725	354,500 @ 65c.	230,425
Hay	72,175	(tons) . . . @ \$12.	866,100
Potatoes	42,539	7,459,000	4,475,400
Turnips	6,740	1,742,306	1,045,383
Carrots	2,083	344,841	206,904
Mangolds	869	410,910	123,273
Animals slaughtered and sold (Nos.)	366,500		12,255,000
Butter and Cheese			1,240,850
Milk sold other than for butter and cheese (estimated)			2,500,000
Wool clip (estimated)			100,000
Fish			102,325
Game and furs			570,000
Horticultural and garden products (estimated)			125,000
Poultry and products			1,700,000

Total value of farm products \$50,822,064

Summary of Alberta Live Stock Exports for the Year 1913

Exports to Europe	nil
Shipped to Winnipeg and the East	3,300
Shipped to British Columbia	51,150
Shipped to United States	5,950

Total 60,400
Local Consumption 65,500
Moved from summer to winter feeding grounds 27,250

Total shipped by railway companies 153,150

Value of Shipments

British Columbia, 51,150 head at \$81.00	\$4,143,150
Winnipeg and East, 3,300 head at \$81.00	267,300
United States, 5,950 head at \$81.00	541,450

Total shipped out of the province \$4,951,900
Local consumption, 65,500 head at \$68.00 4,454,000

Total value to farmers and ranchers \$9,405,900

Value of Hogs and Sheep

275,000 hogs at \$15.00 per head	\$4,125,000
175,000 sheep at 5.00 per head .. .	875,000
Total	5,000,000
Grand Total .. .	\$11,405,900

TELEPHONES

The following are abstracts from the last annual report (1912) of the Minister of Railways and Telephones.

	Long Distance Lines		Rural Lines		Subscribers Stations	
	Pole	Wire	Pole	Wire	Rural	Exchg
	Miles	Miles	Miles	Miles		
Dec. 31, 1911...	2514	4195	3220	4925	3784	10852
Additions, 1912 .. .	603	2494	2763	4746	3336	3840
Total	3117	6689	5983	9671	7120	14692
Increase .. .	24%	59%	86%	96%	88%	35%

Proposed New Construction

Preliminary estimates show our requirements for new construction necessary to meet the demands for service during 1913 to be approximately as follows:

Rural Lines .. .	\$900,000
Toll Lines .. .	400,000
Exchanges .. .	700,000

Or a total expenditure of .. . \$2,000,000

Statement Showing the Capitalization and Earnings of the Various Branches and the Percentages of Earnings on the Capitalization of Each

	Capitalization Dec. 31, 1912	Revenue 1912	Per cent. Earned on Capitalization
Exchanges .. .	\$2,610,250.55	\$329,287.74	12.61%
Toll Lines .. .	1,618,647.42	286,862.01	17.72%
Rural Lines .. .	1,369,950.27	64,582.15	4.71%
	\$5,598,848.24	\$680,731.90	Total Average 12.104%

NOTE.—For the purposes of this statement it will be noted that the capitalization of buildings and sites is equally divided and added to exchanges and toll lines, there being no charge made against rural line capitalization for buildings and sites. Stratheona exchange capitalization is included advance rentals having been retained by the Department.

The foregoing exhaustive reports of the various departments of state are unique as displaying the wonderful advancement made in the province.

THE GREAT MACKENZIE BASIN

The following are abstracts from the report on the Great Mackenzie Basin issued by the Minister of the Interior at Ottawa.

The striking fact established by the evidence treated of in this volume is that for many years the pioneers who know the northland had implicit faith in the future development of large portions of it as an agricultural country.

Russian provinces of the same latitude as the great Mackenzie basin, and possessing no special advantages over that region as regards elevation, climate, soil and natural resources generally, maintain, and have done so for many generations, considerable populations. (Evidence of Dr. Robt. Bell, Prof J Macoun and U. S. Consul Taylor.)

In northern Russia, grain is regularly grown within the Arctic circle. (Evidence of Prof. Saunders.)

In 1888 the wheat growing capacity of the Peace river country was roughly estimated at 300,800,000 bushels. (Report of Dr. Geo. M. Dawson.)

The farther north wheat, barley, oats, rye, etc., can be successfully grown. The larger and heavier the ear and the better the quality of the grain. (Evidence of Prof. J. Macoun, Dr. Robt. Bell, Dr. G. M. Dawson, U. S. Consul Taylor.)

The farther north live stock graze the better they fatten. (Evidence Prof. J. Macoun.)

As long ago as 1852 cows and oxen were kept successfully at Fort Simpson, latitude 62. (Evidence of James Anderson.)

Half a century ago stock raising on a small scale was carried on successfully at most of the Hudson Bay Company's posts and the various missions in the distant northwest. (Evidence of H. B. Co. officials.)

For upwards of twenty years cattle have been kept with success at Fort Good Hope, within the Arctic circle. In 1888 the Roman Catholic mission at Providence had a herd of 15 or 20 head of cattle, and the mission at Lac la Biche, one of about 80 head. (Evidence of Mgr. Clut.) The same year it was reported that there were at Salt river (lat 61½) small settlements of half-breeds who had horses and cattle. (Evidence of Frank Oliver, Esq.)

Excellent cattle have been raised from year to year at York Factory and Churchill, and have done very well. (Evidence of Dr. Robt. Bell.)

As far back as thirty-five years ago the practice of herding out horses during the winter was an acknowledged success in the Peace river country, and Lesser Slave Lake was recognized as 'an excellent place for wintering stock.' (Evidence of Dr. Geo. M. Dawson.)

The extent of the forest areas and the commercial value of the timber growing therein could not be estimated, but were declared to be immense.

The wealth of the country in fisheries and in fur and feathered game was declared to be beyond computation.

The discoveries of mineral wealth already reported in 1888 were most important and varied, although geological exploration was acknowledged to be very incomplete.

There was a general agreement on the part of competent witnesses and the written authorities quoted that the warm influence of the chinook winds is, in winter, felt for a considerable distance east of the Rockies, and as far north as the Arctic circle—in fact, to the mouth of the Mackenzie river.

The lowest temperatures of winter have no injurious effects upon native trees and plants.

The shortness of the summer or growing season within Canada's fertile northland is amply compensated for, as far as vegetable growth is concerned by the extreme length of the period of bright sunshine every summer day, the nights in the higher latitudes during the growing season being so short that there is almost continuous daylight.

Inland navigation in the great Mackenzie basin, by river channel and lake coast, extends for 6,500 miles, almost continuously.

Those who have read recent reports of explorers, travellers and dwellers in the great Mackenzie basin cannot have failed to remark how fully they corroborate the evidence given before the Senate committees as to climatic and other conditions and the promising appearance of considerable areas of this immense territory.

The most recent official reports which contain any reference to the natural resources of the great Canadian northland are those of the officers of the Royal Northwest Mounted Police who have been assigned during the past few years to duty in that region. These reports bear all the more weight on account of the high reputation of the officers of this splendid force for trustworthiness and intelligence, and their general acquaintance with the whole Canadian west, towards the development of which to date they have contributed so conspicuous and honorable a share. A few extracts from one of these reports will indicate the character of the information they contain.

In the summer of 1907 Inspector A. M. Jarvis, C.M.O., was detailed to proceed from Regina to the Mackenzie district to report on the existing herds of wood buffalo. He was accompanied by Mr. E. Thompson Seton, the well known naturalist, and forwarded to his corps headquarters an interesting series of reports on his trip. They were published with the annual report of the force for 1907, as an appendix.

June 14, a short distance from Smiths Landing, on the Slave river, the party began the ascent to the upland known as the Salt mountain. The inspector writes in his report at this point 'This country, and in fact all we have seen here, is, as Mr Seton pointed out to me, eminently suited for settlement. The ground is a rich clay loam. The growth is chiefly black and white spruce, tamarack, aspen, poplar and balsam of gilead, while birch and willow

abound. The pasture is fine. Plenty of grass, among which is a luxuriant growth of *Anemone Pulsatilla* (called *Crocus* in Manitoba), and *Avena*. The trees, plants, vegetation generally, and animal life, the advancement of the season, the rainfall, the soil, and the different climatic conditions, seemed exactly the same as in central Manitoba. The only important Manitoba tree not observable was the oak. The French priest at Fort Smith assures me that oats, barley, potatoes and garden truck are everywhere successfully grown, and wheat equally so in some farmed localities. This, it will be remembered, is exactly what was said of Manitoba 30 years ago.'

LAND REGULATIONS IN CANADA

All public lands in the Provinces of Manitoba, Saskatchewan and Alberta are controlled and administered by the Dominion Government through the Department of the Interior. These are the lands that are disposed of as free homesteads, and are surveyed into square blocks, six miles long by six miles wide. Such blocks are called townships.

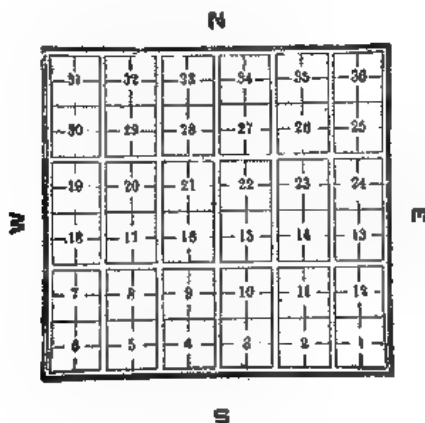

Each township is subdivided into 36 square blocks, called sections. A section is a mile square and contains 640 acres. The sections are numbered from one to thirty-six.

Each section is divided into four square blocks, called quarter-sections.

A quarter-section is half a mile square and contains 160 acres. It is the unit on which these lands are dealt with.

As a section is a square whose sides run east and west and north and south, the four quarters which it contains are described, according to their location, as the northeast quarter, the northwest quarter, the southeast quarter, the southwest quarter.

The Following is a Plan of a Township

Showing how the land is divided into square sections and square quarter-sections. Also showing how the sections in a township are numbered.

Homesteads

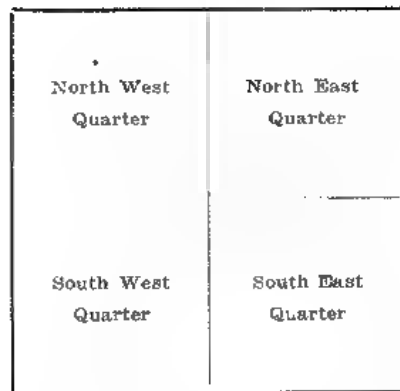

Dominion lands in these provinces may be acquired in the form of homesteads of 160 acres (one quarter-section). A homestead is a grant made under certain conditions involving residence and improvements upon the land on the part of the homesteader. When such duties are completed, a free patent for the land is issued to the homesteader.

Who is Eligible

A homestead may be taken up by any person who is the sole head of a family or by any male eighteen years of age or over, who is a British subject or who declares his intention to become a British subject.

A widow having minor children of her own dependent upon her for support is permitted to make homestead entry as the sole head of a family.

Plan of a Section

Showing how a section is divided into four quarter-sections.

Acquiring Homestead

To acquire a homestead an applicant must make entry in person, either at the Dominion Lands Office for the district in which the land applied for is situate, or at a sub-agency authorized to transact business in such district. At the time of entry a fee of \$10 must be paid. The certificate of entry which is then granted the applicant gives him authority to enter upon the land and maintain full possession of it as long as he complies with the homestead requirements.

Residence

To earn patent for homestead, a person must reside in a habitable house upon the land for six months during each of three years. Such residence, however, need not be commenced before six months after the date on which entry for the land was secured.

Improvement Duties

Before being eligible to apply for patent, a homesteader must break (plough up) thirty acres of the homestead, of which twenty acres must be cropped. It is also required that a reasonable proportion of this cultivation must be done during each homestead year. Before being eligible to apply for patent, the homesteader must have a habitable house upon the homestead.

Application for Patent

When a homesteader has completed his residence and cultivation duties, he makes his application for patent before the Agent of Dominion Lands for the district in which the homestead is situate, or before a sub-agent authorized to deal with lands in such district. If the duties have been satisfactorily performed patent issues to the homesteader shortly after without any further action on his part, and the land thus becomes his absolute property.

Pre-emptions

In certain districts in Southern Alberta and Saskatchewan, an additional quarter-section (160 acres) may be purchased under certain residence and improvement conditions by a person who has secured a homestead, but who has not previously obtained a pre-emption under any Dominion Lands Act. Usually entry for homestead and pre-emption is made at the same time.

Must Adjoin Homestead

The pre-empted land must adjoin the homestead or be separated therefrom by only a road allowance.

Entry

As in the case of homesteads, entry must be made in person before the Agent of Dominion Lands in whose district the land is situate, or before a sub-agent authorized to deal with lands in such district. An entry fee of \$10 must be paid at the time of entry. Only a person with a homestead entry may enter for a pre-emption.

Residence Duties

In addition to the six months' residence in each of three years required in connection with homestead, a person who has entered for both homestead and pre-emption must put in six months' residence in each of the three years to secure patent for both. This residence may be put in on either homestead or pre-emption and must be in a habitable house.

Improvement Duties

The cultivation required in connection with a homestead and pre-emption is eighty acres. This may be done on either the homestead or pre-emption or part of it on each. A reasonable proportion of such cultivation must be done each year.

Payment

Payment for a pre-emption must be made at the rate of \$3.00 per acre as follows:

One-third of the purchase price at the end of three years from date of entry. Balance in five equal annual installments with interest at 5 per cent. at the end of each year from the date of the pre-emption entry

Pre-emption Patent

The procedure for securing patent for pre-emption is similar to the procedure in regard to patent for homestead. There are no fees.

Timber and Fuel

An occupant of a homestead quarter-section, having no suitable timber of his own, may obtain on payment of a 25-cent fee a permit to cut 3,000 lineal feet of building timber, 400 roof poles, 500 fence posts, 2,000 fence rails.

Homesteaders and all bona fide settlers, without timber on their own farms, may also obtain permits to cut dry timber for their own use on their farms for fuel and fencing.

SETTLERS' FREIGHT RATES

Low rates for settlers' effects apply from Eastern Canada and many United States points to Winnipeg and west.

The following is a summary of the customs and freight regulations:

CUSTOMS REGULATIONS

Item 705 of the Customs Tariff (1907), for free entry of settlers' effects reads as follows.

705. Settlers' Effects, viz.: Wearing apparel, books, usual and reasonable household furniture, and other household effects, instruments and tools of trade, occupation or employment; guns, musical instruments, domestic sewing machines, typewriters, bicycles, carts, wagons and other highway vehicles, agricultural implements and live stock for the farm, not to include live stock or articles for sale, or for use as a contractors' outfit, nor vehicles or implements moved by mechanical power, nor machinery for use in any manufacturing establishment; all the foregoing, if actually owned abroad by the settler for at least six months before his removal to Canada, and subject to regulations prescribed by the Minister of Customs, provided that any dutiable article entered as Settlers' Effects may not be so entered unless brought by the settler on his first arrival, and shall not be sold or otherwise disposed of without payment of duty until after twelve months' actual use in Canada.

A settler may bring into Canada, free of duty, live stock for the farm, on the following basis, if he has actually owned such live stock abroad for at least six months before his removal to Canada, and has brought them into Canada within one year after his first arrival, viz

If horses only are brought in,	16	allowed
If cattle " " " "	16	"
If sheep " " " "	160	"
If swine " " " "	160	"

If, horses, cattle, sheep and swine are brought in together, or part of each, the same proportions as above are to be observed

Duty is to be paid on the live stock in excess of the number above provided for.

For customs entry purposes a mare with a colt under six months old is to be reckoned as one animal, a cow with a calf under six months is also to be reckoned as one animal.

Cattle and other live stock imported into Canada are subject to Quarantine Regulations.

The settler will be required to take the following oath:

I, do hereby solemnly make oath and say that all the goods and articles hereinbefore mentioned are to the best of my knowledge and belief entitled to free entry as Settlers' Effects under the tariff of duties of customs now in force, and that all of them have been actually owned by myself for at least six months before my removal to Canada, and that none of the goods or articles shown in this entry have been imported as merchandise or for use in any manufacturing establishment, or as a contractors' outfit, or for sale, and that I intend becoming a permanent settler within the Dominion of Canada, and that the "Live Stock" enumerated and described in the entry hereunto attached, is intended for my own use on the farm which I am about to occupy (or cultivate), and not for sale or speculative purposes, nor for the use of any other person or persons.

Sworn to before me this day of , 191.

Collector

FREIGHT REGULATIONS

1. Carload of Settlers' Effects, within the meaning of the settlers' tariff, may be made up of the following described property for the benefit of actual settlers, viz: Live stock, any number up to, but not exceeding ten (10) head, all told, viz.: Cattle, calves, sheep, hogs, mules or horses; household goods and personal property (second-hand); wagons or other vehicles for personal use (second hand); farm machinery, implements and tools (all second hand), soft wood lumber (pine, hemlock or spruce only) and shingles which not to exceed 2,500 feet in all, or the equivalent thereof; or in lieu of, not in addition to, the lumber and shingles, a portable house may be shipped; seed grain, small quantity of trees or shrubbery; small lot live poultry or pet animals; and sufficient feed for the live stock while on the journey. Settlers' Effects rates, however, will not apply on shipments of second-hand wagons, buggies, farm machinery, implements or tools, unless accompanied by household goods.

2. Should the allotted number of live stock be exceeded, the additional animals will be charged for at proportionate rates over and above the carload rate for the Settlers' Effects, but the total charge for any one such car will not exceed the regular rate for a straight carload of live stock.

3. Passes. One man will be passed free in charge of live stock when forming part of carloads, to feed, water and care for them in transit. Agents will use the usual form of Live Stock Contract.

4. Less than carloads will be understood to mean only household goods (second hand), wagons or other vehicles for personal use (second hand), and (second hand) farm machinery, implements and tools. Less than carload lots must be plainly addressed. Minimum charge on any shipment will be 100 pounds at regular first-class rate.

5. Merchandise, such as groceries, provisions, hardware, etc., also implements, machinery, vehicles, etc., if new, will not be regarded as Settlers' Effects, and, if shipped, will be charged at the regular classified tariff rates. Agents, both at loading and delivering stations, therefore, give attention to the prevention of the loading of the contraband articles and see that the actual weights are way-billed when carloads exceed 24,000 pounds on lines St. Paul and north thereof.

6. Top Loads. Agents do not permit, under any circumstances, any article to be loaded on the top of box or stock cars; such manner of loading is dangerous and absolutely forbidden.

7. Settlers Effects, to be entitled to the carload rates, cannot be stopped at any point short of destination for the purpose of unloading part. The entire carload must go through to the station to which originally consigned.

8. The carload rates on Settlers' Effects apply on any shipment occupying a car weighing 24,000 pounds or less. If the carload weighs over 24,000 pounds the additional weight will be charged for. At St. Paul, Minn., and north thereof, 24,000 pounds constitute a carload; between Chicago and St. Paul and Kansas City or Omaha and St. Paul a carload is 20,000 pounds. From Chicago and Kansas City north to St. Paul any amount over this will be charged extra. From points south and east of Chicago, in the United States, only five horses or heads of live stock are allowed in carloads; any over this will be charged extra carload 12,000 pounds minimum.

9. Minimum charge on any shipment will be 100 pounds at first-class rate.

10. Freight charges on shipments of Settlers' Effects should be prepaid

QUARANTINE OF SETTLERS' CATTLE

Settlers' cattle must be inspected at the boundary. Inspectors may subject any cattle showing symptoms of tuberculosis to the tuberculin test before allowing them to enter. Any cattle found tuberculous to be returned to the United States or killed without indemnity. Settlers' horses are admitted on inspection if accompanied by certificate mallein test signed by United States bureau inspector. If not so accompanied will be tested at boundary. Certificate from any others not accepted. Horses found to be afflicted with glanders within six months of entry are slaughtered without compensation. Sheep may be admitted subject to inspection at port of entry. If disease is discovered to exist in them, they may be returned or slaughtered. Swine may be admitted, when forming part of settlers' effects, but only after a quarantine of thirty days, and when accompanied by a certificate that swine plague or hog cholera has not existed in the district whence they came for six month preceding the date of shipment; when not accompanied by such certificate, they must be subject to inspection at port of entry. If diseased, to be slaughtered without compensation.

FORM OF AGREEMENT FOR SALE OF GRAIN

Memorandum agreement made the.....day of..... 19.. Between A.B., of, etc., of the one part, and C.D., of, etc., of the other part. The said A.B. agrees to sell to the said C.D. five thousand bushels of wheat, of the grade known asto be delivered to the said C.D. at (.... ..) on or before the first day of January next, free of all charges, at the price or sum of..... per bushel. And the said C.D. agrees to purchase the said wheat, and to pay therefor at the rate aforesaid, upon delivery as aforesaid. And the said A.B. hereby guarantees and warrants the said wheat to be good clean and merchantable grain.

Witness the hands of the said parties.

Signed in the presence of
Y.Z.

A.B.
C.D.

LIEN NOTES

Whenever on a sale or bailment of goods of the value of \$15 or over, it is agreed, provided or conditioned that the right of property or right of possession in whole or in part shall remain in the seller or bailor notwithstanding that the actual possession of the goods passes to the buyer or bailee, the seller or bailor shall not be permitted to set up any such right of property or right of possession as against any purchaser or mortgagee of or from the buyer or bailee of such goods in good faith for valuable consideration or as against judgments, executions or attachments against the purchaser or bailee unless such sale or bailment with such agreement, proviso or condition is in writing, signed by the bailee or his agent, and registered as hereinafter provided. Such writing shall contain such a description of the goods the subject of the bailment that the same may be readily and easily known and distinguished.

Provided, that nothing in this section shall apply to any bailment where it is not intended that the property in the goods shall eventually pass to the bailee on payment of purchase money in whole or in part of the performance of some condition by the bailee.

EXEMPTIONS FROM DEBT

The Exemption ordinance provides as follows:

2. The following real and personal property of an execution debtor and his family is hereby declared free from seizure by virtue of all writs of execution, namely:

1. The necessary and ordinary clothing of himself and his family.
2. Furniture, household furnishings, dairy utensils, swine and poultry to the extent of five hundred dollars.
3. The necessary food for the family of the execution debtor during six months, which may include grain and flour or vegetables and meat either prepared for use or on foot.
4. Three oxen, horses or mules or any three of them, six cows, six sheep, three pigs and fifty domestic fowls besides the animals the execution debtor may have chosen to keep for food purposes, and food for the same for the months of November, December, January, February, March and April, or for such of these months or portions thereof as may follow the date of seizure, provided such seizure be made between the first day of August and the thirtieth day of April next ensuing.

5. The harness necessary for three animals, one wagon or two carts, one mower or cradle and scythe, one breaking plough, one cross plough, one set of harrows, one horse rake, one sowing machine, one reaper or binder, one set of sleighs and one seed drill.

6. The books of a professional man.

7. The tools and necessary implements to the extent of two hundred dollars used by the execution debtor in the practice of his trade or profession.

8. Seed grain sufficient to seed all his land under cultivation not exceeding eighty acres at the rate of two bushels per acre, defendant to have choice of seed, and fourteen bushels of potatoes.

9. The homestead, provided the same be not more than one hundred and sixty acres; in case it be more, the surplus may be sold subject to any lien or incumbrance thereon.

10. The house and buildings occupied by the execution debtor and also the lot or lots on which the same are situate, according to the registered plan of the same to the extent of fifteen hundred dollars.

GAME LAWS

The close season is as follows.

Bison and buffalo, all the year round.

Elk and wapiti, until 15th November, 1912.

Antelope (prong horn), from 1st November to 1st of the next October.

Other kinds of deer, from 1st December to 1st of next November.

Female deer, moose, mountain sheep or antelope or the young (under one year old) of any of these animals are absolutely protected at all times.

Ducks and swans, from 1st January to 23rd August.

Cranes, rails, coots and shore birds, including snipe, sandpiper, plover and curlew, from 1st January to 1st September.

Grouse, partridge, pheasant, ptarmigan and prairie chicken, from 1st November to 1st of next October, with limitation of number to be taken by one person, in one day, 10; in one season, 100.

English pheasants, all the year round.

Beaver, until 31st December, 1915.

Mink, fisher or martin, from 1st April to 1st November.

Otter and muskrat, from 1st May to 1st November.

A person is only allowed to take one animal of the deer kind during each open season.

Hunting on Sundays and at night is prohibited.

LAND TITLES

The Torrens System of Land Transfer

This system is now in force in Alberta, British Columbia, Manitoba, Ontario, Saskatchewan, and three counties in Nova Scotia.

The Torrens system was introduced into Manitoba in the year 1885 and into Ontario during the same year. The bill for its introduction into Alberta and Saskatchewan was passed by the Parliament of Canada in the year 1886. The following statements, explanatory of the system, have been compiled from various sources, to enable readers to familiarize themselves with its objects and methods.

Certificate of Title

Any person entitled to any estate of freehold in possession in land under the Act may have a certificate of title issued to him.

Every certificate is in duplicate. One duplicate is given to the proprietor, the other is retained in the Land Titles Office. The certificate in the office constitutes the register book, which (in the words of Mr. Torrens), is the pivot on which the whole mechanism turns. Every certificate is marked with the number of the volume and the folio of the register book. Crown grants of land bought since the Acts came into operation are also issued in duplicate, one of which is bound up in the register book, and such grants are, in all respects, equivalent to certificates of title.

Registration of Titles

A very important principle in the Torrens system of registration of title, and one which should be most jealously guarded, if that system is to retain the simplicity which is the main-spring of its success, is the non-recognition of trusts. No notice of trusts may be entered on the register, nor may any instrument declaring trusts be registered. The usual simple transfer must be registered, and the transferees, notwithstanding their fiduciary position, appear

there as the registered proprietors for all intents and purposes. An instrument declaring the trust may, however, be deposited in the Registry Office for safe custody, and the rights of the persons beneficially interested are protected by the execution by the transferees of such an instrument which is lodged in the Registry for safe custody and reference. A protection against fraud is provided by enacting that whenever the words "No Survivorship" are written on the instrument of title held by trustees, the land in respect of which they are registered cannot be dealt with by a less number of trustees than those registered, without the sanction of the Supreme Court. A caveat prohibiting the registration of any dealing, except in accordance with the trusts so declared, may be lodged by any person interested in the trust property. These safeguards do not interfere with the principle sought to be maintained, namely: that the trustee, being the registered proprietor, can give an absolutely indefeasible title to a person with whom he deals, and that beneficiaries, though the Caveats provide a check upon frauds and breaches of trust, must rely mainly on the integrity of their trustees.

The principal transactions and instruments which have to be notified to the Lands Titles Office, and registered there in order to give a valid title to any person claiming under them, are:

- Transfer in fee.
- Lease
- Mortgage.
- Encumbrance or charge.
- Endorsement of Transfer of Lease
- Endorsement of Mortgage
- Endorsement of Encumbrance.
- Endorsement of Surrender of Lease.
- Endorsement of Discharge of Mortgage
- Power of Attorney.
- Transmission by marriage
- Transmission by Insolvency
- Transmission by Will, or Intestacy.
- Fi. fa., or Order or Decree of Supreme Court.

TRANSFERS LEASES AND MORTGAGES

Of a transfer in fee, only one copy need be presented for registration, a mortgage must be in duplicate, and a lease in triplicate.

The instruments presented for registration are received by the proper official, who examines them to see that they fulfil all the requirements of the act, namely: that they are free from erasures, properly witnessed and proved; also that they are accompanied by diagrams, if necessary, and by the certificate of title

BRAND LAWS

Brands: Their Nature, Ownership, Use and Significance

5 Exclusive right to brand:

Upon the allotment of any brand to any owner or transferee under the provisions of this ordinance and the entry in the record thereof, such owner or transferee shall have the exclusive right to the use of such brand, and the presence of a recorded brand on any stock shall be prima facie evidence of the ownership of such animal by the owner of such brand. 1900, c. 22, s. 5.

Record of Brands

6. Recorder of brands:

The Lieutenant-Governor-in-Council may appoint a recorder of brands who shall be subject to the direction of the commissioner and who shall keep a record of all brands allotted under this ordinance. 1900, c. 22, s. 6.

7. Any person shall be entitled to have the record searched and to obtain certified extracts therefrom during the regular business hours of the department on payment of the fee prescribed in the tariff of fees appended hereto 1900, c. 22, s. 7.

8. Application for allotment of brand:

Any person requiring the allotment to him of a brand shall make application therefore to the recorder, which application shall be accompanied by the fee prescribed in the tariff of fees appended hereto, and upon being satisfied that the application is in conformity with the provisions of this ordinance, the recorder shall allot a brand to such applicant and enter the same in the record.

Provided, however, that no brand shall be allotted to an Indian living on a reserve. 1900, c. 22, s. 8.

9 Certificates of record of brand:

Upon the recording of any brand as aforesaid, the person in whose name the same is recorded shall become the owner thereof; and the recorder shall deliver or transmit to the applicant to whom such brand is allotted a certificate of the allotment and entry in the record thereof, and the production of any certificate purporting to be a certificate signed by the recorder under the provisions of this section in any court, shall be prima facie evidence of the ownership of such brand, without any further proof or signature. 1900, c. 22, s. 9.

10. Publication of recorded brands.

The commissioner may at such times and in such a manner as may seem to him desirable cause to be published a complete list of the brands recorded under this ordinance, and may make a reasonable charge for the volume containing the same. 1900, c. 22, s. 10.

11. Change in brand:

The recorder may, upon the application of any owner, accompanied by the fee prescribed in the tariff of fees appended hereto, make changes in the brand or position thereof not inconsistent with the provisions of this ordinance. 1900, c. 22, s. 11.

12. Number of brands:

No person shall have allotted to him more than two brands for horses and two brands for cattle. 1900, c. 22, s. 12.

SCHOOL LANDS

An Ordinance to Regulate Public Aid to Schools

(Chapter 31 of 1901)

The Lieutenant-Governor, by and with the advice and consent of the Legislative Assembly of the Territories, enacts as follows:

1. Short Title:

This Ordinance may be cited as "The School Grant Ordinance."

2. Interpretation:

In this ordinance unless the context otherwise requires—

1. The expression "assessable land" shall mean land in respect of the ownership or occupancy of which some person is assessed

2. All words, names and expressions shall have the same meaning as is expressly or implicitly attached to them in The School Ordinance.

3. Grants to Schools:

In aid of schools organized and conducted under the provisions of The School Ordinance, there shall be paid out of any legislative appropriation made for that purpose—

1. Rural.

To rural districts an amount to be calculated as follows:

(a) To each district containing 6,400 acres, or less, of assessable roll of the district (\$1 20) per day for each day school is kept open, to each district containing less than 6,400 acres aforesaid one cent more per day for each 150 acres or fractional part thereof less than 6,400 acres aforesaid one cent less per day for each additional 150 acres or fractional part thereof. 1904, c. 10, s. 1.

(b) To each district whose school is kept open more than 160 days in the year, 40 cents per day for each additional day not exceeding 50.

(c) To each district engaging a teacher who holds a first-class professional certificate under the regulations of the department, 10 cents per day for each day such teacher is actually employed in the school.

(d) To each district whose school maintains a percentage of attendance as set forth in the following schedule, the sum set opposite thereto for each day school is kept open.

THE INCREMENT TAX (Unearned)

The following is an abstract relating to the form of Affidavit to be used as between the Transferor and Transferee on sale of property:

Canada

Province of Alberta.

"I (name in full, no initials) of (residence), (occupation), make oath and say:

"I am the transferor (or transferee or agent, of the transferrer, or, and transferee) in the within (or above) transfer mentioned and I know the land above (or within) described.

"2. The improvements upon the said lands consist of the following and are of the fair value set out opposite each:

Building used as a.....	\$.....
Building used as a.....	\$.....
Building used as a.....	\$.....
(setting out every building)	
.....of fencing
(stating length)	
Clearing	acres.
Breaking	acres.
Crops now on land	acres
Garden improvement
Well
Other improvements
(describing them)	
Total	\$.....

"3. The land alone, without improvements, is of the fair value of... .. dollars, the total value of the lands, with the improvements, being at the date hereof,dollars.

"4. I know the circumstances of the above (or within) transfer, and the consideration named therein is the true consideration passing between the parties.

"Sworn before me at the City of..... in the Province of Alberta, thisday of..... A. D. 1913

A Commissioner, etc."

The following are abstracts from authentic publications.

IMMIGRATION INTO WESTERN CANADA FOR THE YEAR 1912

From Great Britain and Ireland.....	145,859
From United States	140,143
From other countries	109,802

Total	395,804
-------------	---------

In the last five years, ending March 31, 1911, immigrants brought into the country cash and settlers' effects as follows:

British, cash	\$ 90,110,400
British, settlers' effects	45,055,200
United States, cash	187,712,000
United States, settlers' effects	130,093,000
Non-English speaking, cash	2,305,000.....

Total	\$455,280,600
-------------	---------------

In 1911, according to a carefully compiled report in the Winnipeg Free Press

The cattle crop produced	\$ 9,568,611.00
Hogs	1,538,620.64
Sheep	194,190.25
Butter and cheese	2,448,155.31
Potatoes, roots and hay	7,818,000.00
Poultry from Manitoba	45,033.10

Making a grand total of.....\$21,612,610.30 other than grain, or not far from half of the value of the wheat crop.

The average of butchers' cattle was the highest in five years. The price of export cattle was \$10 per head greater than in 1910. The money received for cattle exceeded that of 1910 by \$2,245,288.

An outstanding feature of the trade was the enormous increase in the butchers' cattle and feeders going to the East. The trade in butchers' cattle to the eastern markets, from nothing in 1906 rose to 39,345 head.

The increase in feeders was 24,525.

Table showing growth in population of Western Canada for census periods 1891, 1901, 1906, 1911.

	1891	1901	1906	1911
Manitoba	152,506	255,211	365,688	455,614
Saskatchewan	37,628	91,279	257,768	492,432
Alberta		73,022	185,412	374,663
British Columbia	98,173	178,657	*	392,480

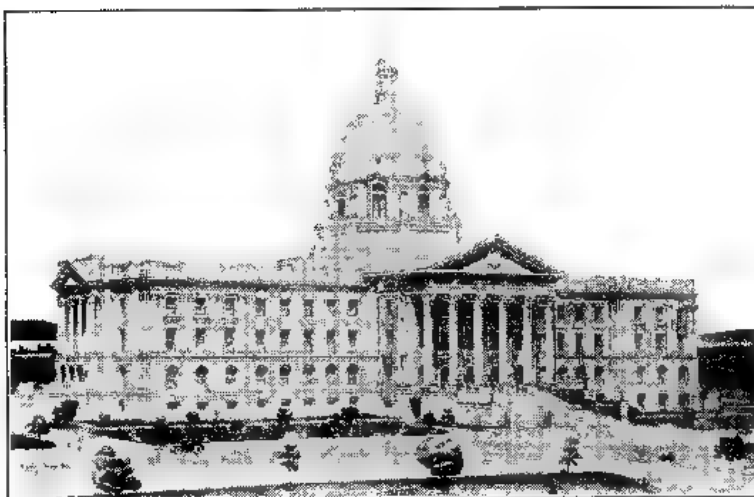

*No census figures available

Wheat crop summary, showing development in acreage and production for Manitoba, Saskatchewan and Alberta:

	Acreage Man.	Acreage Sask.	Acreage Alta.	Total Acres	Yield Bushels
1898 ..	1,488,232	276,253	31,348	1,795,544	31,486,012
1899 . .	1,629,995	328,459	35,090	1,993,544	34,838,861
1900 . . .	1,457,396	382,540	30,361	2,516,678	63,315,818

- "N" Division—District Headquarters: Athabaska, Alta. Commanding Officer—Supt. A. E. C. McDonell, Athabaska, Alta.

(See also in Cities Sections for local information)

Postal Information

RATES OF POSTAGE

FIRST-CLASS MATTER.

LETTERS

Letters addressed to places in Canada, Mexico and United States, including Guam, Hawaii, Panama Canal Zone, Philippine Islands, Porto Rico and Tutuila, 2 cents per ounce or fraction thereof.

Letters addressed to places in Canada must be at least partially prepaid and those addressed to Mexico and the United States must be prepaid at least a full rate (2c.). Otherwise they will be sent to the Dead Letter Office.

Letters addressed to places in Canada and partly prepaid will be forwarded, subject on delivery to double the amount of unpaid postage.

Letters for the United States should bear the name of the State as well as that of the Post Office.

Letters addressed to mere initials, or fictitious names, will not be delivered unless addressed in care of a resident or to some box in the Post Office.

Letters addressed simply to a street number or to a room number in a specified building without the name of a person, firm, etc., may be delivered, provided there is only one household or firm in occupation of the premises indicated; otherwise letters so addressed will be sent to the Dead Letter Office as insufficiently addressed.

Every letter for the city should bear name, street and number, no matter how well known the name may be; otherwise it is an incomplete address, and delivery may be delayed.

RE-DIRECTED LETTERS

Re-directed letters are not liable to any additional postage if handed back to the Post Office with a changed address at the moment of delivery or as soon as possible thereafter, provided always the change in the address does not require the letter to be sent to any place to which the postage rate is higher than was at first payable. In this case the additional postage, if not prepaid, will be collected on delivery.

Re-directed letters should not be dropped into a Post Office Box or Receiver unless additional postage has been put on to carry them to their second destination.

REQUEST LETTERS

Letters from places in Canada, Newfoundland, Mexico and the United States, covered by envelopes, bearing a request, either printed or written, that the letters be returned to the sender if not delivered within a certain specified time, will be returned as requested if not delivered in the time stated.

Requests, whether printed or written, on packages of Third or Fourth-class matter, and on transient newspapers for return in case of non-delivery, will be complied with; but a charge will be made for such direct return equal to the original postage charge.

SPECIAL DELIVERY LETTERS

Letters are sent to their City Addressee between 7 a.m. and 1 p.m. daily except Sunday, bearing in addition to the usual prepayment of 2 cents an ounce, a "special delivery" Canadian stamp, addressed to the following cities in Canada: Berlin, Brandon, Brantford, Brockville, Calgary, Charlottetown (P.E.I.), Chatham, Ft. William, Edmonton, Fredericton, Galt, Guelph, Halifax, Hamilton, Hull (Que.), Kingston, Lethbridge (Alta.), London, Moncton (N.B.), Montreal, Moose Jaw (Sask.), New Westminster (B.C.), Niagara Falls (Ont.), Ottawa, Owen Sound, Peterboro, Port Arthur, Quebec, Regina, St. Catharines, St. Hyacinthe, St. John.

St. Thomas, Sarnia, Saskatoon (Sask.), Sault Ste. Marie (Ont.), Sherbrooke, Stratford, Sydney (N.S.), Toronto, Trois Rivières, Vancouver and Victoria, Windsor, Winnipeg. The 10 cents "special delivery" stamp may be obtained at any post office.

American Special Delivery Stamps may be obtained at the Stamp Counter.

EXPRESS LETTERS AND PARCELS

There is immediate delivery of "Express" letters and parcels, so marked addressed to United Kingdom. Fee payable there on letters is 5c. a mile from addressee's post office. Fee payable on parcels, 15c., can be prepaid here.

POST CARDS

For Canada, Mexico and the United States, 1 cent each. For Great Britain, Newfoundland and all Postal Union countries, 2 cents each. Reply cards for Canada and the United States, 2 cents each. Nothing must be attached to a Post Card.

Private Post Cards, duly prepaid 1 cent each by postage stamp, may be posted in Canada for delivery within Canada, Mexico, and the United States.

Private Post Cards may have a reply card attached bearing 1 cent stamp.

Post Cards (official or private) may be posted in Canada addressed for delivery in any Postal Union country, postage 2c. each. Such cards are admissible as "printed matter," provided they conform to the regulations governing same, in which case the postage rate is 1c. each.

The limit of size for a Private Post Card (Domestic) is 6 in. long by 3½ in. wide.

The British Post Office will recognize as entitled to return to this country the reply halves of Canadian Domestic Reply Post Cards upon which the additional 1 cent postage stamps required have been affixed.

For fear of the reply side of a double post card becoming uppermost, enclose it in a small India-rubber ring.

Legal Documents and Commercial Papers

Legal Documents and Commercial Papers, and all other matter either wholly or partly in writing (except the matter specially mentioned under Third-class), are liable to letter rate of postage, 2 cents per ounce, when posted for delivery in Canada.

These papers may be sent to Great Britain, Newfoundland, United States, and all Foreign countries at 6 cents for the first 10 ounces, and 1 cent for each additional 2 ounces. Must be sent in covers open at the ends, so as to be easy of examination.

SECOND-CLASS MATTER.

NEWSPAPERS FROM OFFICE OF PUBLICATION

The despatch of newspapers by mail from office of publication, is governed by the regulations of the Post Office Act, §1 Vic., cap. 20, and all information respecting enclosures, sample copies, etc., can be obtained at the General Post Office.

Transient Newspapers and Periodicals

Transient newspapers and periodicals for any place in Canada, Mexico or the United States 1c. per 4 ounces. For other countries see Foreign Postal Rates published in Post Office Guide.

THIRD-CLASS MATTER.

Books, Matter Partly Printed or Wholly in Print and Miscellaneous Matter

On Books (printed), Pamphlets, Circulars (printed or produced by a multiplying process), Catalogues, Hand Bills, Blank Forms, Prices Current (printed), Calendars, Show Cards, Maps, Prints, Drawings, Plans (without specifications), Engravings, Lithographs,

Photographs (on card or paper), Visiting Cards (printed or engraved), Sheet Music, Printed Stationery, Official or Private Post Cards (when sent in bulk to a separate address) and all matter wholly in print, when addressed to Canada, Mexico, United States, Newfoundland, and all other countries, the rate is 1c. for each 2 ounces or fraction thereof. Limit of weight to Canada, 5 lbs., but a single book, 10 lbs. Limit to United States, 4 lbs. 6 ozs., and to United Kingdom, 5 lbs. For other Postal Union countries, 4 lbs. 6 ozs. No packet addressed to Canada may exceed 2 feet 6 inches in length, nor may the combined length and girth of any package exceed 6 feet. When addressed to other countries, except to the United Kingdom, when the limit is 2 ft x 1 ft x 1 ft, the limit in size must not exceed 12 lbs. in any direction unless in the form of a roll when a length of 30 lbs. is allowed, provided the diameter does not exceed 4 ins.

Book and Newspaper Manuscript, Printer's Copy and Printer's Proof Sheets, when posted for delivery in Canada, or the United States, the rate is 1c. for each 2 ozs. or fraction thereof. Limit of weight to Canada, 5 lbs., to the United States, 4 lbs. 6 ozs.

The rate on this class of matter when addressed to places in Mexico, is 1 cent per 2 ozs. Limit of weight, 4 lbs. 6 ozs.

Manuscript, when not accompanied by proof sheets, addressed to Great Britain and all foreign countries, with the exception of the United States and Mexico, must be prepaid as commercial papers.

Manuscript, when accompanied by proof sheets relating thereto, may pass to Great Britain and all foreign countries at the rate of 1c. for each 2 ozs. or fraction thereof. Limit of weight to Great Britain, 5 lbs.; to other countries, 4 lbs. 6 ozs.

All such matter must be put up in such a way as to admit of the contents being easily examined.

CIRCULARS

are communications in print or produced by a multiplying process easily distinguished from typewriting, which are posted to several individuals and couched in identical terms. A circular may, without becoming liable to a higher rate of postage, be signed and dated in handwriting and may also contain the name of the addressee in writing at the top.

The postage on Circulars produced in imitation of typewriting or handwriting by a multiplying process, is 1c. per 2 ozs., when at least 20 copies in precisely identical terms are handed in to the Post Office at one time.

Circulars typewritten are liable to letter rate.

Printed Matter Addressed "The Householder"

Circular matter duly prepaid, may be posted, addressed simply "The Householder," without the name of any person, or indication of street or number, and will be delivered at every house so far as the supply permits, in places in Canada where there is free delivery by letter carrier. The number of householders in city offices, where the letter carrier system is in operation, can be ascertained on application at the Postmaster's Office.

PATTERNS AND SAMPLES

Domestic Patterns and Samples of Merchandise, not exceeding 3 lbs. in weight, and not of saleable value, may be sent to any place in Canada or Mexico, at 1 cent for each 2 ounces or fraction thereof. Must be put up so as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, articles sent by one private individual to another, not being actually Trade Patterns or Samples, are not admissible. Limit of size, 30 inches in length by 1 foot in width or depth.

The rate on these articles when addressed to other countries is 2 cents for the first 4 ozs. or fraction thereof and 1c. for each additional 2 ozs. or fraction thereof.

Limit of weight to United Kingdom is 5 lbs., limit of size 2 feet in length by 1 foot in width or depth.

The limit of weight to other Postal Union countries is 12 ozs. Limit of size, 1 foot in length by 6 ins. in width, and 4 ins. in depth. If in form of roll it may be 12 lbs. in length and 6 ins. in diameter.

SEEDS, CUTTINGS, BULBS, ETC.

On Seeds, Cuttings, Bulbs, Roots, Solons or Grafts (but not cut flowers), when posted for delivery in Canada, the postage is 3 cents for the first 4 ozs. or fraction thereof, and 1 cent for each additional 4 ozs. or fraction thereof. Limit of weight, 5 lbs. These articles can only be sent to the United States at the 1 cent per ounce rate. Limit of weight, 4 lbs. 6 ozs.

FOURTH-CLASS MATTER

MERCHANDISE, ETC.

comprises such articles of general merchandise as are not entitled to any lower rate of postage. When addressed to places in Canada or the United States, the postage is 1c. for each ounce or fraction thereof. Limit of weight in Canada, 5 lbs., to the United States, 4 lbs. 6 ozs.; of size, 3 ft. 6 ins. in length, but the combined length and girth of any packet must in no case exceed 6 ft. Matter claiming to be Fourth Class must be open to inspection, and there must be no correspondence enclosed, except invoices and accounts of the articles enclosed, (when addressed to Canada only). Packages of Fourth Class matter may be sent to the United States, including Porto Rico, Hawaii, Panama Canal Zone and Philippine Islands, if prepaid 1 cent per ounce, but the contents will be liable to Customs inspection and collection of duty in the United States. Sealed tins containing fish, lobster, vegetables, meats, etc., if put up in a solid manner and labeled in such a way as to fully indicate the nature of their contents, may be sent as Fourth Class matter within the Dominion, but no sea-food can be sent forwarded to the United States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as Fourth Class, if securely put up.

REGISTRATION

Money letters should always be registered. Every article intended for registration must be handed in at the wicket and a receipt obtained therefor.

The fee on all classes of articles addressed to countries to which matter may be registered is 5 cents.

The sender of a registered article posted in Canada for delivery in Canada, or in any other Postal Union country, may entitle himself to a certificate as to the disposal of the said article by the Postmaster at the office addressed, on prepayment of an additional fee of 5 cents. All classes of matter may be registered to all destinations in Canada and (with the exception of that sent by parcel post) throughout the Postal Union, and letters may be registered to most of the countries not included in the Union.

Senders of registered articles are requested to put their names and addresses in the upper left hand corner of the cover.

The public are reminded that registered letters are only carried on trains that are accompanied by a rail way mail clerk. Hence a registered letter and an ordinary letter posted simultaneously will often be received at different times.

In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada, the addressee, or, at the request of the addressee, the sender is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

FOREIGN AND COLONIAL MAILS

Rates of Postage

The postage rate on letters mailed in Canada, addressed for delivery in the United Kingdom and the following British Possessions, is 3 cents per ounce or fraction thereof: Aden, Ascension, Australia, Bahama Islands, Barbados, Basutoland, Bechuanaland Protectorate, Bermuda, British States in East Africa, British East Africa, British Honduras, British New Guinea, British North Borneo Company's Territory (including Colony of Labuan), British Agencies in French Settlements in India, British Solomon Islands, British Somaliland, British Postal Agencies in China, via Amoy, Canton, Chefoo, Foochow, Hankow, Hellow, Liu-Kung-Tau (Wei-Hai-Wei), Ningpo.

Postal Agencies in Morocco, viz.: Alcazar, Casablanca, Fez, Larache, Marrakesh, Mazagan, Mequinez, Mogador, Rabat, Saffi, Tangier, and Tetuan. Cape Colony, Cayman Islands, Ceylon, Cyprus, Egypt, Falkland Islands, Fanning Island, Fiji, Gambia, Gibraltar, Gold Coast Colony, Grenada, Hong Kong, India (Brit.), including agencies at Bahrain, Gadar, and Muscat and Gyanse. Pharloung, and Lstung (Chumbi) in Tibet. Jamaica, Lagos, Leeward Islands, Malay States, Malta, Mauritius, Natal, Newfoundland and New Zealand (including Cook Islands), Nigeria, Norfolk Island, Nyassa and Protectorate, Orange River Colony, Papua, Rhodasia, St. Helena, St. Lucia, St. Vincent, Sarawak, Seychelles, Sierra Leone, Straits Settlements, Soudan, Tobago, Transvaal, Trinidad, 1. Union D'Acunha, Turk's Islands, Uganda, Zanzibar.

The Countries included in the above list are all embraced in the Postal Union and, with the exception of the reduction in the Letter Rate and in the Newspaper Rate to the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Nigeria, Sarawak, Seychelles, Sierra Leone, Trinidad, Tobago, Turk's Islands, United South Africa, and Zanzibar, the Postal Union rates and Regulations remain in force.

Transient newspapers and periodicals printed and published in Canada may be sent to places indicated in the preceding paragraph at the rate of 1 cent per 4 ounces or fraction thereof. Other papers at the rate of 1 cent per 2 ounces.

RATES TO OTHER POSTAL UNION COUNTRIES

Letters, 5 cents per ounce or fraction thereof, and 2 cents for each additional ounce or fraction thereof. Post Cards, 2 cents each. Newspapers, Books, Photographs, Printed Matter etc., 1 cent per two ounces; Samples, 2 cents for first four ounces, 1 cent for each additional 2 ounces. Commercial Papers, 5 cent for first 10 ounces, 1 cent for each additional 3 ounces, registration fee, 5 cents. Packets of photographs for Italy exceeding 3½ ounces in weight can only be forwarded when prepaid at place of post.

Letters containing Gold, Silver, Jewelry, or anything valuable to customs duties, cannot be forwarded by post beyond the Dominion. Such articles when addressed to the United States must be sent forward as Fourth-class matter. To all other foreign countries (excepting those to which their entry is prohibited) these articles must be forwarded by Parcel Post.

Postage stamps must be placed on the address side of Post Cards and other unenclosed cards sent abroad.

INTERNATIONAL REPLY COUPONS

for the purpose of enabling the senders of letters to other countries to provide for prepayment of the replies can be purchased at Canadian Post Offices for 6 cents each. These Coupons are exchangeable for postage stamps of the value of 5 cents in any of the countries participating in the arrangement, and the names of such countries can be ascertained on enquiry at Stamp Counter, General P. O.

PARCEL POST

Direct Parcel Post. Exchanges are in operation between Canada and the countries mentioned in the following table, the rate and limit of weight being as specified in each case.

	Rates of Postage.		Limit
	For	For each	of
	first succeeding	lb.	Weight
	lb.	lb.	
Australian Colonies (except West Australia)	24c	24c	11 lbs.
Bermuda	18c	12c	11 "
*China (see foot note)			
France	18c	8c	11 "
Grenada	25c	25c	7 "
Japan	20c	20c	7 "
Newfoundland	12c	12c	11 "
New Zealand	12c	12c	11 "
United Kingdom	12c	12c	11 "

Bahamas, Barbados, British Guiana, Jamaica, Leeward Islands, Mexico, St. Lucia, St. Vincent, Tobago and Trinidad for the first pound 12 cents for each succeeding pound, 12 cents limit of weight, 11 lbs.

*The rates on parcel post to all parts of China having been increased, they cannot be shown in the above table. Parties wishing to mail parcels to that country are, therefore, advised to ask at the Post Office as to the rates.

Parcels may also be sent via England to nearly all other countries. Rates and special conditions may be found in the Official Postal Guide, or learned on enquiry at Post Office or any of the Branch Offices.

No correspondence must be enclosed. A Customs Declaration of the contents and value of each parcel must be filled up at the Post Office, or one of the branches, and attached to the parcel by the sender.

No parcel sent from Canada by parcel post to the United Kingdom or to another country via the United Kingdom, may contain an enclosure bearing a different address from that on the cover of the parcel.

Parcels addressed to the United Kingdom must not exceed 30 ins. in length by 1 ft. in width or depth, nor must the combined length and girth exceed 5 ft. Parcels will be accepted, however, 5 ft. 6 ins. in length, and having a combined length and girth not exceeding 6 ft., provided the contents are articles which could not be packed in shorter parcels, such as umbrellas, golf clubs, etc.

Parcels addressed to any country other than the United Kingdom must not exceed 2 ft. in length by 1 ft. in depth.

No parcel may contain coin or bullion exceeding five pounds sterling in value, in case of coins a special exception is made, allowing coins which are clearly intended for purposes of ornament to be enclosed in parcels, even if their value exceeds five pounds.

The importation of the following articles into the United Kingdom by Parcel Post is prohibited: Letters, explosive and dangerous articles, foreign reprints of British Copyright works, acetylene, extracts or other concentrations of coffee, chicory tea or tobacco, snuff work, tobacco stalks, tobacco stalk flour, prison-made goods, saccharin, and substances of a like nature or use, rags, shoddy, and live animals (except bees in properly constructed cases).

POST OFFICE SAVINGS BANKS

are established at the General Office. Sums of \$1.00 or any multiple of \$1.00 can be deposited, but the maximum sum which may be received from any one depositor in any year, ending the 31st March, is \$500, and the total sum which may be received to the credit of any depositor is \$5,000 interest 2 per cent.

MONEY ORDERS

The purchase of a Money Order is but the work of a minute and payment is just as prompt.

The rates of commission for Money Orders issued for Canada for payment in Canada, Antigua, Bahamas, Barbados, Bermuda, British Guiana, Cayman Islands, Cuba, Dominica, Grenada, Guam, Hawaii, Jamaica, Montserrat, Nevis, Newfoundland, Panama Canal Zone, Philippine Islands, Porto Rico, St. Christopher (St. Kitts), St. Lucia, St. Vincent, Tobago, Trinidad, Turks Island, Tutuila (Samoa), Virgin Islands, and the United States, are as follows, viz.:

On Orders up to	\$5	10	20	30	40	50	60	70	80	90	100
Over \$5 and up to \$10	.00										
Over \$10 and up to \$20	.10										
Over \$20 and up to \$30	.15										
Over \$30 and up to \$40	.20										
Over \$40 and up to \$50	.25										
Over \$50 and up to \$100	.30										
The rates on commissions on Orders payable in the United Kingdom, British possessions and all other countries upon which Money Orders may be obtained, except those mentioned above, are as follows, viz.:											
If not exceeding	\$5	.00									
Over \$5 and up to \$10	.10										
Over \$10 and up to \$20	.15										
Over \$20 and up to \$30	.20										
Over \$30 and up to \$40	.25										
Over \$40 and up to \$50	.30										
Over \$50 and up to \$100	.35										

Over \$50 and up to \$70	.75
Over \$70 and up to \$80	.80
Over \$80 and up to \$90	.90
Over \$90 and up to \$100	1.00

There is no exchange of money orders with Spain.

Duplicate orders issued free of charge. Transfer of payment from one place to another and changes in names of persons to whom payment is to be made are effected without any additional charge.

Office Hours at Head Office—From 8 to 22.

POSTAL NOTES

The Postal Note System established by the Post Office Department affords a cheap and convenient means for remitting small sums.

Are sold and paid at more than 10,000 Post Offices in Canada.

May be bought as quickly as Stamps. May be bought during all Post Office Hours.

Can be crossed to ensure safety. To meet the public interest the rates have been fixed at very moderate figures, as follows:

1c. on note for \$0.20	2c. on note for \$0.90
1c. " " .25	2c. " " .100
1c. " " .30	2c. " " .150
1c. " " .40	2c. " " .200
2c. " " .50	2c. " " .250
2c. " " .60	2c. " " .300
2c. " " .70	2c. " " .400
2c. " " .75	2c. " " .500
2c. " " .80	2c. " " .10.00

Odd cents may be made up by affixing Canadian Postage Stamps not exceeding 3 cents in value to the face of a Postal Note, if the same is for remittance to a place in Canada.

Additional Postage Stamps must not be attached to Note by payee.

Canadian Postal Notes can be made payable at any Post Office in the United States transacting Money Order business. If the payee resides in a city, the Notes must be drawn on the Main City Office, not on a sub-office or station.

Postage Stamps must not be affixed to Postal Notes drawn for payment in the United States.

Canadian Postal Notes are payable only in Canada and the United States.

British Postal Orders issued in the United Kingdom and British Possessions are payable at the Main Office in the following cities in Ontario: Ottawa, Kingston, Toronto, Hamilton, Brantford, London and Windsor; and also at the principal cities in the other provinces of Canada.

GENERAL POSTAL INFORMATION

A large number of letters reach the Post Office every day which are undeliverable, by reason of the absence of street and number from the address, while serious delays and vexatious errors occur all the time from the same cause. Whether in business or residential districts, "street and number" form an indispensable part of the address of letters. If business men, however well known, have their street and number printed on their stationery, their correspondents avail themselves of the information, and the Post Office and public are both benefited. Delay to the extent of at least one delivery must occur when references to the City Directory is necessitated.

CITY LETTERS.—Where an addressee's name is in the City Directory, the writer has the same means of completing the address as the post office has, and delay in delivery is avoided.

A street runs sometimes for miles under the same name, and a dozen or more carriers serve its several parts. Where the house number is omitted from the address in such streets, the letter will be returned to writer for amended address, instead of, as heretofore, being tried on every carrier serving that street, and prompt delivery will result. If referred to our Directory Clerk, the wrong person must often be "tried" and time is lost in the same way.

Thinking to save trouble in their own offices, persons mailing circulars, catalogues, etc. in large numbers often address them omitting street and number, thus entailing certain delay in sorting and equally uncertain delivery. Banks and companies posting notices and dividend cheques are constant offenders in this way. In the interest of the senders these will be returned in bulk for better address.

Persons living in the neighborhood of the Post Office sometimes complain that they receive letters no earlier than those who live in the suburbs. It would seem almost unnecessary to state that every carrier begins his walk practically at the same time. The position of a house in the carrier's walk governs the time at which letters are re-livered there. These walks are meant to be covered in one hour, or two according to district and the number of deliveries made in the day. The hour of the first delivery accords with the arrival of morning trains from the East, and a majority of people object to receiving letters before 8 a.m.

Merchants or others having much mail matter to post at or about 6 p.m., when their offices close, are advised to insist on their messengers carrying the matter to the General Post Office, thus avoiding occasional overlooking of the street letter boxes in the central district.

Persons posting circular notices of meetings, etc. where immediate despatch is of importance would do well to hand them in at the Post Office with intimation to that effect.

The growing habit of using in an address the fancy title of a house, instead of merely the plain street and number is a frequent source of error at the sorting cases, where the work has to be done by a rapid glance, and the title of the house happens also to be the name of a post town.

A Carrier is not required to leave letters at any house where he may be in danger of a vicious dog. The owner must call at the General Delivery, till the dog is tied up or otherwise disposed of.

Many persons telephoning to the Post Office resent the reply that their request must be put in writing. But obvious mischief might result from orders for the disposition of correspondence given by an unrecognized voice.

Unused Postage Stamps not being redeemable by the Department should not be used for the remittance of small sums of money, as Postal Notes have been introduced for that purpose.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer or to any other person.

The sending of a letter or any communication or document subject to letter postage in an open cover does not in any way diminish its liability to letter rate of postage.

Letters bearing mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not will be sent to the Postmaster General for his adjudication.

MAIL COLLECTIONS

On week days the street letter boxes (according to location) are searched from nine times a day in the central districts to twice in the outside except Sunday.

On Sundays, street letter boxes are searched at 6.00 p.m.

On Public Holidays—New Year's Day, Good Friday, 24th of May, Dominion Day, Labor Day, Thanksgiving Day and Christmas Day, there is a morning delivery only. The outgoing mails will close as usual. Street letter boxes will be collected twice during the day, viz. 10 and 12.30. The General Delivery will be open from 8 to 11 o'clock.

LICENSED STAMP VENDORS

The Post Office Act imposes a fine of \$40.00 (each offence) for the unauthorized sale of Postage Stamps, Post Cards, etc.

ATHABASCA

(Formerly Athabasca Landing)

A town on the Athabasca River 97 miles north of Edmonton. Located on Sec. 20, Tp. 66, Rg. 22, west of the 4th Mer. on the Edmonton-Slave Lake branch of the C. N. R. Populated mostly by Canadians, English and French.

The soil in this district is a chocolate loam, 80 per cent. of which is arable, with a very small percentage under cultivation, and may be purchased at from \$14.00 to \$18.00 per acre. In 1912 there were 3,500 settlers located in the district tributary to Athabasca. The population of the town itself increased 100 per cent. The industries that have located and are operating very successfully are ship-building yards, saw mills, brick-making works. Mining, lumbering and farming generally are very remunerative to those who enter into these lines in the Athabasca district. Athabasca is the gateway and distributing point for the Mackenzie Basin, Grand Prairie, Lesser Slave Lake and Peace River districts. Three thousand miles of navigable water are tapped at Athabasca. Vast timber limits extend along the banks of these waterways, being the largest in the Canadian West, east of the Rocky Mountains. This, combined with the small cost of floating will tend to make the town of great importance for manufacturers of lumber. Quantities of minerals also exist throughout this country, some of which are gold, silver, copper, oil, coal, salt, and a vast amount of asphaltum. Natural gas has recently been struck in paying quantities.

Population—2,500

EXECUTIVE COMMITTEE

W. H. LEE W. E. MURDOCK W. G. TORCHIANA

The Objects of the Association

- FIRST:** The improvement of directories by the interchange of ideas and the exchange of experienced employees.
- SECOND:** The protection of the public against fraudulent advertising schemes operating under the name of directories, and the maintenance of a high standard of excellence and accuracy of information in the publication of directories; thereby maintaining and promoting the confidence of the advertising public in reliable directories; also the securing of permanent employment for competent, industrious canvassers and honest compilers.
- THIRD:** The advancement of the interests of all who may become members hereof
- FOURTH:** The promotion generally of social, as well as business intercourse among its members.

Come to Camrose, Alta. and enjoy life while you are getting rich
For particulars about this alive town, address . . . Frank P. Layton, Camrose Alberta

Banff

GAZETTEER AND DIRECTORY

Banff 169

BANFF

A town on the main line of the C P R 81 miles west of Calgary, 919 miles west of Winnipeg and 516 miles east of Vancouver. It is a medicinal watering place and pleasure resort, the altitude being 4,500 feet at the C P R station. The Government meteorological station on summit of Sulphur Mountain is at the altitude of 7,455 feet.

The town is headquarters for the "Rocky Mountains Park" the Canadian National Park, covering an area of 5,300 square miles or over 2½ million acres. It extends from near Morley on the east to near Palliser (R.C.) on the west, there being 103 miles of main line of the C P R within the park which embraces parts of the valleys of the Bow, Spray and Cascade rivers, Yoho Valley, Devil's Lake and several grand mountain ranges. The Park is now in charge of the Dominion Government and of an ever increasing interest and wonder to tourists with its splendid collection of wild animals now almost extinct elsewhere.

H. B. Macdonald & Co.
City Property Loans
Beveridge Building - Calgary

The government has provided excellent accommodation for bathing at the Cave and Basin. The Upper Baths on Sulphur Mountain, with their springs at 119° Fahr attracts health seekers from all quarters of the globe sent here by enthusiasts who have been here and gone away cured of their ills. Telephone service is furnished by the government local exchange, also line to Banffhead Electric Light from Bankhead Mines plant.

The hotel accommodation at Banff is first class, with prices to suit all classes. The C. P. R. hotels at Laggan and Field are also included in the park since the extension of its boundaries. Churches represented are, Anglican, Methodist Presbyterian and Roman Catholic.

Bassano 177

BASSANO

A town on the main line of the C. P. R., 83 miles east of Calgary, 97 miles west of Medicine Hat, on Sec 17, Td. 21, Rg 18, west of the 4th Mer., in the electoral division of Medicine Hat. Mails twice daily.

A complete waterworks and sewerage system, costing \$200,000 has been installed. The water, after being pumped from the Bow, some 4 miles away, gravitates into the town's area. The sewage undergoes a thorough chemical process of treatment by the aid of sealed vessels.

An up to date incinerator has been erected for destroying garbage and refuse and from which a manufacturing chemical works is apt to be started.

The Great Dam of the C. P. R. Irrigation Department has now been completed, and that corporation is preparing to meet the rush of new settlers through the means of ready-made farms, sold on instalment plan.

The town assessment for 1913 amounted to \$1760,000 (single tax), while that of the school district amounted to 3¼ millions.

Blackfoot Indian Reserve

GAZETTEER AND DIRECTORY

Blairmore 196

BLACKFOOT INDIAN RESERVE

This reserve is situated at Blackfoot Crossing, on both sides of the Bow River. It extends from Rg 19 westward to Rg 25, and from Tp 20 north to the main line of the C P R. It comprises 274.3 sq miles, containing 175,580 acres. Crowfoot Creek flows southeasterly into Bow River about 11 miles east of Blackfoot Crossing. The Arrow Wood Creeks run northeasterly through the southwestern part and fall into the Bow River. The chief topographical features of the reserve are low ranges of sand dunes called respectively Drifting Sand Hills, Peigan Sand Hills, Nimex and Rocky Buttes. The country, generally, is a high undulating plain of fertile clay loam, with groves of cottonwood in the river bottoms. There are extensive coal areas on the eastern side of the Reserve, lying chiefly in the Bow River coal district. The number of families is 145. Gleichen on the main line of the C P R is the nearest railway station and postoffice. The Government officials are:

Gooderham John R agent
Gordon William asst agent
Boyce Edwin coal mines
Breton David L stockman
Clark Fred J farmer
Gardner Rev Millard E prin C E School
Jones A E stockman
Jowett John W accountant
Leverne Rev J L R C Missionary and school principal

BLOOD INDIAN RESERVE

The largest reserve in the Dominion,
situated between the Belly and St.
Mary's rivers, 13 miles east of Mac-
leod and 14 miles north of the inter-
national boundary. It comprises ap-
proximately 647½ square miles, con-
taining 345,000 acres of land, which
consists of high dry undulating plain
interspersed with superior grazing
coulees. The chief topographical fea-
ture of the reserve is Belly Butte, a
well-known landmark facing the Belly
River. The principal Indian settlement
is here. Turnip Hill is on the north-
ern part of the reserve on the trail
from Whoopup to Slideout. Fishing
Creek enters the reserve near the

BOW ISLAND

An incorporated town on the Crow's
Nest branch of the C. P. R., 67 miles
east of Lethbridge. Located on Sec
36, Tp. 10, Rg. 11, west of the 4th Mer,
in the electoral division of Taber.
Has municipal gas plant and water
works. The presence of natural gas
near this town was first detected by
the Canadian Pacific Railway, which
about three years ago was sinking test
wells along the bank of the South
Saskatchewan River, 3½ miles north
of Bow Island, with the hope and ex-
pectation of oil being found, traces of
which had been discovered at various
places in the neighborhood. In one of
these test wells a tremendous flow of
natural gas was met with. Nothing
however, was done at the time by the
railway company, but a geologist, who
accompanied the party, recognizing the
value of the discovery, soon after-
wards left for England, where he was
instrumental in exciting the interest

of a number of capitalists. The re-
sult was the formation of a company
with a capital of \$8,000,000.

Since then thirteen wells have been
completed, and seven more are on the
way. From those completed, a total
flow of over 150,000,000 feet of gas is
now at the service of the company.

We append herewith the number of
cubic feet each well produces in the
twenty-four hours:

No. 1.. 8,500,000	No. 8.. 13,000,000
No. 2... 6,400,000	No. 9.. 16,000,000
No. 3... 13,000,000	No. 10.. 6,250,000
No. 4... 30,000,000	No. 11.. 6,000,000
No. 5.. 1,500,000	No. 12.. 22,000,000
No. 6.. 6,000,000	No. 13... 13,000,000
No. 7.. 6,000,000	

The above company completed this
summer the laying of a pipe line to
Calgary, 171 miles in length.

Coal mining and farming are also
important industries in this district.

Mails daily.

City of Calgary

Location

Situate in what must eventually become the manufacturing belt of the West, and lying contiguous to the great undeveloped coal areas of the Province, the City of Calgary looms prominently on the railway map as lying at the confluence of the Bow and Elbow Rivers. Being 860 miles west of Winnipeg and 640 miles east of Vancouver, it is practically the commercial metropolis of the Province. Most of the leading Eastern manufacturers and wholesale houses are represented here by over 1,000 commercial travelers.

Incorporation

Incorporated in 1884 as a town, it received its city charter ten years later, when its population amounted to about 8,000. Since then Calgary has grown to be a metropolitan city containing over 83,000, a remarkable growth.

Calgary appears to be the geographical railway centre of Alberta. The C. P. R. employs about 6,000 hands in the Calgary district. The Edmonton branch and the Macleod branch of the C. P. R. run north and south respectively. In addition, the G. T. P., the C. N. R. and the Great Northern are all heading towards Calgary, the first two companies of which are running mixed trains into the city.

Calgary is the western headquarters of the C. P. R.; controlled by a general superintendent and with a large staff of officials and clerks.

Industrial

Calgary is the seat of the milling industry of the Great West, but it also holds plants manufacturing Portland cement, soap, lumber, beer, oils and paints, iron foundries, packing and abattoir plants, brick plants, and many others. The largest employer of labor in the city, at present, is the Canadian Pacific Railway, next to that, probably, the building trade seems to be the most important, finding work, as it does, for about 5,000 hands. The industries in Calgary are heavily staffed and an increasing number among the employees proves that the business growth of the city is expanding. When completed and in full operation the new C. P. R. shops at Ogden are expected to be manned by some 3,000 folk.

Natural Gas

The discovery of natural gas within the city and adjacent to it has given an impetus to the encouragement of numerous industries, and that valuable asset now supplies power to manufacturers and also lights portions of East Calgary. Too much importance cannot be accredited to this discovery.

All the new business blocks of Calgary are of substantial construction, built generally of stone, brick and reinforced concrete, many having steel superstructure. Material for the erection of all buildings can be supplied on the spot.

Franchises

Calgary is municipally owned, controlled and operated. The street railway system, at the present time, consists of about 50 miles of trackage, and the number of passengers carried for this year is estimated to be over 17,000,000. The electric light and power department is controlled by the commissioners. The waterworks system, which at the present time consists of some 150 miles, is being largely increased.

Climate

The climate of Southern Alberta is ideal, and on account of its altitude—some 3,400 feet above sea level—Calgary has long been favorably noted for its beneficial attributes.

Educational

Calgary's educational advantages are of import, its modern equipped school buildings furnishing every requirement to make them perfect. The public school buildings in the city are exceptionally attractive. There are also a number of private schools, including Western Canada Mount Royal College (Methodist), St. Hilda's Girls' College, Bishop Pinkham College, the Sacred Heart (R. C.) Convent, and several business colleges.

A site for a university has been generously donated by a well-known citizen, and arrangements for its completion are left in the hands of an able board.

Parks

The city is well provided with parks, comprising some 450 acres. Five of these are located in the centre of the city, and give every opportunity to the young and old to enjoy themselves as they wish. Band and orchestral concerts are given at times in one or other of these parks. The city has also arranged for a park in the suburbs, which will be at once provided with street car accommodation.

Live Stock

Calgary is the headquarters for all the live stock associations in Alberta. The annual Horse Show, held in connection with the Cattle Breeder's and Horse Breeders' Associations, has for the past two years made an enviable reputation for itself. At this annual show exhibits of pure-bred cattle, fat and blood stock are most marked.

Farming

Of great importance to the neighborhood is the fact that the Provincial Government of Alberta has established throughout the Province creameries and cold storage plants, and situate within touch of Calgary. This means that Calgary acts as a distributing centre for these products. Further significance is lent by the C. P. R., whose irrigation policy is in no small way revolutionizing the farming and ranching industry throughout Southern Alberta. Up to date they have expended at least over \$15,000,000 and are now spending at least an additional \$15,000,000 to complete their irrigation system from Bassano to Medicine Hat, a distance of about 75 miles. The irrigated areas have already begun to prove the value of this modern science in farming.

The City of Possibilities

In 1881 Calgary consisted but of the Hudson Bay Company's store, another occupied by J. G. Baker, the Mounted Police Barracks and the house of the commander. Three years later mention is made in the Henderson Directory for the North West Territories of Calgary's population being at that time about 500. "Mails twice a week," "Stage weekly to Edmonton and Fort McLeod," are interesting events reflected in that compilation.

Population

The year 1906 saw the first City Directory for Calgary, which was issued by Henderson Directories. An estimate of the population, then, is stated as 20,000. As showing the carefulness of the publishers at arriving at that estimate the police census in the following year returned the population at 21,000.

In 1909 the Police Census returned the city as holding 29,265, but the Henderson Directory for 1910 estimated the population, then, at over 40,000. Two years afterward it had increased to nearly 74,000. This year's returns show a further increase in the people of about 14 per cent. for the year.

Sites

Industrial sites offered at cost price to the city. Assessment fixed at not over \$3,000 per acre until Jan. 1st, 1918. Buildings and stock exempt from taxation until the same date.

Calgary has a circumference of 40 miles.

Investments

First mortgages furnish an interest rate of from five to eight per cent., according to amount of loan.

Building material of all kinds can be found in abundant quantities within the city limits and adjacent.

Twenty-six fraternal societies have branch lodges in Calgary.

Exhibition, Etc.

The Calgary Industrial Exhibition, held in the first week of July each year, is favored with the patronage of 100,000 visitors.

Calgary's City Hall cost \$320,000

Week end excursions to Banff, "The Playground of Canada," are one of Calgary's pleasure attractions and outings.

Calgary is now the largest city between Winnipeg and the Coast.

Calgary offers most liberal propositions to industrial plants.

More full and complete information regarding Calgary will be forwarded on application to the Publicity Commissioner, Calgary.

Bank Clearings

The following is a return of bank clearings for Calgary during the past three years

1911	\$218,681,921
1912	\$276,491,303
1913	\$247,882,848

Street Railway System Municipally Owned and Operated.

Calgary can well point with pride to its Street Railway System. Installed in July, 1910, with only 16½ miles of tracks and four cars, it has been a revenue producer from the commencement. More cars were added as rapidly as possible, and during the first six months of its existence the system showed a net profit of \$10,001.37. It is now an exceedingly valuable adjunct to the city, which receives large dividends on the outlay expended. The system is managed by the mayor, commissioners and a superintendent.

Light and Power Department

Municipally owned, controlled and operated. Installed at a cost of approximately \$1,000,000

The city plant is capable of supplying 2,000 h.p. 24 hours daily, service generated by steam. An auxiliary 2,000 h.p. daily service is received from the Calgary Power Company, which has a water power plant forty miles west on the Bow River. The city reserves all rights to distribute light and power throughout the city, and the rates are very low, being as follows:

Light—75c per month for the first light, 60c each additional. Meter basic, 11c per K.W.

Power—6c per K.W., with discounts for prompt payments

It will only be a short time when all municipal wires will be laid underground in conduits. Several miles have already been laid, and the work of extending the conduit system is being rushed as rapidly as possible

The light and power department has netted the city a profit since its inauguration.

Waterworks

Calgary has gravity system of waterworks. Pure, fresh water comes from numerous streams in the adjacent Rocky Mountains, a few miles west. Piped twelve miles from Elbow River to the reservoir, which has a capacity of 20,000,000 gallons

Water rates in Calgary are lower than 80 per cent. of the cities in the United States, and lower than a great majority of towns and cities in Canada.

An Auxiliary plant is kept in constant readiness in case of accident or serious conflagration to relieve or assist the gravity system. Three pumps, with 5,000,000 gallons capacity, are located at this plant on the Bow River.

The water main pressure is at all times maintained at an average of 70 pounds, but for fire purposes it can immediately be raised to from 90 to 105 pounds

Internal Expansion

Population, 1913 (estimated by Henderson's City Directory)—80,851

Area of City—40½ square miles

Rate of Taxation, 1912—12½ mills.

Death Rate per 1,000 of population 14.3.

Birth Rate per 1,000 of population—25.6

THE CALGARY CITY PLANNING COMMISSION

The Calgary City Planning Commission is a body of citizens appointed by the Mayor of the City to act in an advisory capacity in regard to the growth and development of Calgary along hygienic and aesthetic lines. Its aim (to quote its motto) is: "To make Calgary a better City to live in, to come to and to move about in."

The scope of the Commission's work may be briefly shown by giving the names of the eight Committees. They are:

Housing and Sanitation.

Legislative.

Arts and Buildings (Civic Centres, etc.)

Draughting

Publicity (Educational).

Streets Improvements.

Traffic and Transportation.

Parks, Boulevards and Playgrounds.

Secretary-treasurer—G. Wray Lemon

INDUSTRIAL AND DEVELOPMENT BUREAU OF CALGARY

Commissioner—Andrew Miller.

The Industrial Bureau of Calgary is an official organization of business men who have no self-interest to serve, but who give their time and money for the advancement of their city. The Bureau was formed and is maintained for the purpose of aiding the industrial development of Calgary. Through its efforts and assistance, many manufacturing institutions have come to Calgary and are succeeding here. The Bureau maintains an office at Calgary under the direction of its Commissioner at 231 8th Av. W., and the services of this office are open to inform, aid and assist prospective Calgary manufacturing or business houses in every legitimate way.

An Industrial Expansion Committee considers all propositions of manufacturing and recommends such action as may appear desirable.

The Publicity and Advertising Committee plans and has carried out the campaign for attracting attention to the inducements, facilities and advantages offered by Calgary to manufacturers and investors.

An Entertainment and Convention Committee provides for the entertainment of distinguished visitors and delegates and extends to national and international conventions invitations to hold their gatherings in this city.

The Transportation Committee is prepared at all times to take up with the railway companies, for members of the Bureau or manufacturers, such questions as freight rates and classification of goods.

Chairmen of the above committees, with the president and vice-presidents, constitute an executive committee which finally passes upon all the work of the Bureau.

Come to Camrose, Alta. and enjoy life while you are getting rich.
For particulars about this alive town, address . . Frank P. Layton, Camrose Alberta

Camrose

GAZETTEER AND DIRECTORY

Camrose 393

CAMROSE

A flourishing town on Sec. 2, Tp 47, Rg. 20, west of the 4th Mer., in the electoral division of Strathcona. Situated on the Wetaskiwin branch of the C. P. R., 25 miles east of Wetaskiwin and on the Vegreville-Calgary line of the C. P. R., 47 miles from Vegreville, also on the Calgary branch of the G. T. P. Ry., 25 miles from Tofield. The town has graded streets, a volunteer fire department having a fire engine, a \$10,000 public school, grain elevators, churches of all denominations and numbers amongst its industries a cement block manufactory, a tannery, 2 feed mills and a creamery. The C. P. R. has a dam built across stoney Creek in the centre of town, affording a never failing water supply for domestic use and for electric lighting and power. Sixty new residences were built in the town during the year 1913. Splendid progress was made during the year on the provincial normal school and it is now confidently hoped that that institution will be ready for occupancy for the fall term of 1914. The railroads which radiate in eight directions from Cam-

H. B. Macdonald & Co.
City Property
Loans
Beveridge Building - Calgary

rose will all be in operation before the end of 1914. The Camrose Canadian Club, comprising the business and professional men, and housed in its splendid club house, is a dominant factor in the advancement of the town. Camrose is the centre of a most prosperous farming and wheat growing district. Mails daily.

CHIPEWYAN

A Hudson's Bay Co's post at the west end of Lake Athabasca, 437 miles from Athabasca, the nearest telegraph and railway.

It is the main distributing point and was formerly the headquarters of the H B Co for Athabasca district.

Is reached partly by wagon and partly by boats. Has a saw mill owned and operated by the Nativity Mission.

The H B Co's steamer "Grahame" runs south 185 miles to Fort McMurray on Athabasca River, 102 miles north to Smith's Landing on Great Slave River, and also west 273 miles up Peace River to Red River, four miles below Vermilion Chutes. Has Anglican and Roman Catholic missions convent and Roman Catholic school. Mails are received 10 times a year.

CORONATION

A town and post office on the Lacombe-Moose Jaw line of the C P R, being a divisional point 100 miles east of Lacombe. Has telephone, first class hotel, 2 churches, 2 banks, a fine railway station, moving picture theatre, skating and curling rink, over \$5,000 spent on sidewalks, good water and lignite coal close by. A fine school costing over \$40,000 has just been completed.

The C P R Swift Current line and the C N R are expected to be in Coronation in 1914. The country around is very suitable for mixed farming and dairying.

Population, 1913—1,100

Mayor—H S Northwood

Councillors—J Bonsall, A Keith, W W Wilson, T Laycraft

DIDSBURY

The town of Didsbury is located on
the Calgary-Edmonton branch of the
C P R, 48 miles north of Calgary
Incorporated as a town in 1907

The electric light plant is municipi-
ally owned and operated and a well
equipped volunteer fire brigade fur-
nishes fire protection.

Didsbury has two first-class hotels,
4 general stores, 2 hardware stores,
1 gent's furnishing and boot and shoe
store, 3 livery and feed barns, 2 bar-
ber shops, 2 butcher shops, 1 drug
store, 2 doctors, 1 lawyer, 2 dentists,
1 real estate office, 2 banks, 2 imple-
ment dealers, 1 furniture store, 1 har-
ness shop, 1 flour and feed store, 6
hay and grain dealers, 1 confectionery
store, 2 restaurants, 1 bakery, 3 lum-
ber yards, 1 jewelry store, 1 flour
mill, 1 laundry, newspaper and print-
ing office, corrugated metal culvert
factory, 1 tailor, 2 millinery stores, 2
cartage companies, 1 photographer, 1
moving picture theatre, 1 opera house
and a curling and skating rink.

Didsbury has a \$35,000 school build-
ing, which is one of the best in the
province. Six teachers are employed
and all the standards of public and
high school works are taught.

A beautiful municipal park, with
the unique feature of a natural grand
stand, is used for athletic and agri-
cultural exhibitions.

DUNMORE

The eastern terminus of the Crows Nest section of the C. P. R. situate six miles east from Medicine Hat and located in Sec 12, Tp 12, Rg 5, west of the 4th Meridian.

The C. P. R. in consequence of the large increase of traffic, are erecting a station and roundhouse with extensive yards for the better handling of the Coast trade which is expected to largely increase on opening of the Panama Canal.

In the midst and surrounding Dunmore lie the natural gas area flowing at a pressure, approximately, of 600 pounds per square inch. The cost to residents for heating, lighting and cooking is about \$2 a month.

Heavy shipments of wheat take place at this point, which is recognized as a milling centre.

Preparations for securing a good supply of water from the Saskatchewan River are in hand

Henderson Directories Alberta, Ltd.

Greater Edmonton

Greater Edmonton comprises all that portion formerly known as Strathcona, and now described as Edmonton South, together with the tract north of the River Saskatchewan and Calder. Amalgamation of Edmonton and Strathcona took place in 1912, and the result is one of the strongest cities in Western Canada.

Edmonton is splendidly located, geographically and stands in the very path of trade, the true gateway to the vast and rich Peace River country to the northwest.

The city is the chief point in Alberta on the Canadian Northern and Grand Trunk Pacific systems, with the Canadian Pacific so strongly interested with its two lines into Edmonton—one direct from St. Paul, Minnesota. The Grand Trunk Pacific is building west to Prince Rupert, and the Canadian Northern west to Vancouver. Railroads are also building into the Peace River country and will open this empire of the northwest to regular trade in a year or two.

Edmonton owns and operates its public utilities, such as the street railway, power and light service, telephones and waterworks. The single tax is in operation here.

Edmonton is the capital of Alberta, and the provincial government has just completed a new parliament building at a cost of nearly \$3,000,000.

Commercially and industrially, Edmonton is expanding fast. There are 16 banks in the city and eleven branch banks. There are 100 industrial establishments including: flour mills, packing plants, iron and brass foundries, saw mills, brick yards, sash and door mills, tent and mattress factories, creameries, box factories, breweries, bottling works, cigar factories, tanneries, manufacturing jewelers, stucco works, vinegar and pick factories, cement products works, etc.

Edmonton, besides being the seat of the University of Alberta, has excellent public schools, colleges, etc.

The opening of the new high level bridge connecting the north and south sides of the city witnessed the completion of one of the greatest features of modern bridge engineering.

EDMONTON INDIAN AGENCY

This reserve is situated 14 miles west of Edmonton on the Stony Hair Trail, and lies in Sec 22 Tp 52 Rg 26 west of the 4th Mer. It has an area of 39.9 square miles, containing about 26,000 acres. White Mud Creek flows in a northeasterly direction through the southwestern end of the reserve and the lands along this stream are best adapted for cultivation. There are numerous ponds, swamps and prairie openings affording peavine and vetches of great luxuriance. The soil is a rich black loam and the greater portion of the surface is thickly covered with scrub and poplar, with spruce, birch and tamarac along the western and southern boundaries. Spruce Grove Centre is the nearest railway station and post-office. There are 58 families. The government officials are George H Race agent Roman Catholic Mission—Rev C Tessier O M I Hope H farmer at Riviere Qui Barre Pattison A E farmer at Waterman Fugh I E agency clerk White Joe interpreter

Evansburgh

GAZETTEER AND DIRECTORY

Evansburgh 655

EVANSBURGH

A village and station on the main line of the C. N. R., at the crossing of the Pembina River 70 miles west of Edmonton, located on Sec 30, Tp 53, Rg 7, west of the 56th Mer. The G. T. P. main line to the Coast also crosses the townsite and has an industrial spur to the mines but no passenger. At present the Pembina Coal Company, Limited, is the principal industry. The Company has a paid-up capital of \$2,100,000 and owns twelve thousand acres of coal lands. The mine is now being developed to a capacity of 1,200 tons daily. An exceptionally good shale on the property will be worked for pressed brick and fireproof building products.

The site was laid out in advance by a town planning expert to take full advantage of the situation at the junction of the Pembina and Lobstick Rivers. There is a village centre for the public buildings, boulevards, parks, athletic grounds, etc. Attractive miners cottages have been built. A water system is in operation with intake at the Pembina River. The mine streets and houses are lit by electricity. Electrical machinery is used for mining and underground haulage.

H. B. Macdonald & Co.
City Property
Loans
Beveridge Building - Calgary

The Pembina Mining Society, under the auspices of the company, holds free classes for employees preparing for the Government examinations. The Pembina Athletic Society looks after sport. At present the company operates the school, club, boarding houses, store and post office.

FORT MCPHERSON

The most northerly trading post of the Hudson's Bay Co, on Peel River, 20 miles up from its entrance into the Mackenzie River, about 100 miles from the coast, lying in lat. 67 26, long. 136, being a little over a degree within the Arctic Circle 1,105 miles from Fort Resolution and 1,854 miles from Athabasca Landing.

The climate at Peel River is very severe, and the extreme average cold is about 60 degrees below zero. The ice in the river breaks up the end of May and the river freezes up again in October. The atmosphere is very moist on account of the proximity to the Arctic Ocean. The coldest dip registered is 88 degrees below zero.

FORT SIMPSON

A trading post in Mackenzie Territory, situated on the west bank of the Mackenzie River at its junction with the Liard River. It was formerly the headquarters of the H B Co for the Mackenzie River district. Is 1078 miles from Athabasca Landing. The H B Co's steamer runs between Fort Smith 523 miles south, to the mouth of the Mackenzie River, 776 miles north. Mails 4 times a year.
Roman Catholic Mission Rev Father Audmaud O M I, Rev Father Vacher O M I
Anglican Church—Rev H R Day
Hislop & Nagle Alex Laferte trader
Hudson's Bay Co—A F Cammell clerk
David Kirkley laborer Jas Sibbiston laborer John Hope pilot
Napoleon Laferte trapper

FORT SMITH

A trading post on Great Slave River, 16 miles north of Smith's (Graham) Landing with which it is connected by wagon road and telephone, 555 miles south of Fort Resolution and 1 1/2 miles north of 60th parallel.

Western Motors Limited

PROVINCIAL DISTRIBUTORS FOR

Reo, Chalmers, White Pleasure Cars
Wagenhal, Stewart, White Trucks

Phones: W.1390-W.1986

Calgary, Alta.

It is the head post of the Mackenzie River district of the H B Co.

There is clear navigation from Fort Smith to the mouth of Mackenzie River, by H B Co's steamer "Mackenzie River" which sails from Fort Smith to Fort McPherson; through trip leaves Fort McPherson 1st July, arrives Fort McPherson 15th July; returning arrives Fort Smith 1st August, approximately.

Population is small, mostly Indians and half-breeds, who are engaged in fur trapping and transport service. Large salt springs are in the vicinity but on account of situation are almost impossible to utilize, about 2 tons shipped north annually.
Mails 2 per annum.

Grand Rapids

GAZETTEER AND DIRECTORY

Grande Prairie 687

GRAND RAPIDS

On the Athabasca River, 166 miles from Athabasca Landing. The H. B. Co. have a wooden truck tramway with 2 push cars $\frac{1}{2}$ mile long across the island at Big Grand Rapids. The Grand Rapids are 87 miles in length and comprise 11 rapids, viz.: Big Grand, Little Grand, Brulle (Burnt), Boiler, Middle, Crooked, Stony, Little Cascade, Big Cascade, Mountain and Moberdy.

GRANDE PRAIRIE

A post office on Sec 26, Tp 71, Rg 6, west of the 6th Mer., in the provincial electoral division of Peace River and being located on the Bear River about 7 miles north of Wapetta River, it can be reached by stage from either Edson or Grouard. Mails bi-weekly. Has a plentiful supply of both wood and water, a stream running through the town. Has telegraph office, bank, 2 churches, newspaper, hotel 2 general stores and saw mills are located near. It is also a H. B. post.

The C. N. R. propose building into this district in the near future.

H. B. Macdonald & Co.
City Property
Loans
Beveridge Building - Calgary

This district is a beautiful rolling prairie of a park-like nature, with an abundance of timber, fuel, lumber and water, being studded with lakes, intersected by rivers and within sight of the white capped peaks of the Rockies. The soil is a very rich black loam, ranging from three to six feet in depth. The climate is like that of Edmonton, with the exception that this district is subject to the warm Chinook winds and very often very mild winters are experienced. Cereals and vegetables grow to perfection and it is also the centre of a splendid farming district and is well settled.

Postmaster—J. O. Patterson

GROTON

A post office on Sec 28, Tp 3, Rg 10, west of the 4th Mer. In the electoral division of Medicine Hat. Nearest railway and express office Milk River.

Postmaster—A J Peterson

GROUARD

A town on Sec 21, 30, 31, Tp 75 Rg 15, west of the 5th Mer. Located at the west end of Lesser Slave Lake, being the head of navigation with 80 miles of waterway. Is reached by steamboat connection with Athabasca in summer and in the winter from Athabasca the trail follows along on the ice of the Athabasca River to Lesser Slave Lake and then follows up this river to about 30 miles from where the river leaves the lake, at this point it goes overland to Lesser Slave Lake. The ice on Lesser Slave Lake is then followed. There are stopping places where hay and light supplies may be obtained along the trail. The nearest railway is Port Cornwall distant 110 miles. From Grouard to the Peace River itself is 70 miles, trails lead to all districts of the Peace River Country.

The C N R and the E D & B C Ry's have acquired considerable land in the vicinity of the town, so it will become an assured railway centre.

The climate is like that of Edmonton but the winters are moderated by the Chinook winds coming from the Pacific. The snowfall is light, little or no shelter is required for cattle. The rainfall is ample.

Especially around this district there is an abundant growth of grasses varying from three to seven feet high. The soil varies but as a rule it consists of a rich black vegetable loam from six to thirty inches or more in depth. In places this changes to a sandy loam with a clay subsoil.

This district is rich in minerals, is excellent for mixed farming and is the central agricultural distributing point north and west.

The Pioneer Firm

Fort George Realty & Securities Company, Limited

Capital of \$150,000, and a reputation stands back of every deal

GAZETTEER AND DIRECTORY

Hanna 699

HANNA

A town and divisional point on the C N R Goose Lake line from Saskatoon to Calgary. The C N R own vast areas around the town, and have completed (1913) a magnificent round house. The country around is a splendid grain growing and cattle raising district. The following lines are being or will shortly be, built into Hanna, making it, without doubt the most important railroad centre between Calgary and Saskatoon. The C N R, Medicine Hat-Hanna-Edmonton, G T P Ry, Biggar-Hanna-Calgary, C N R Hanna to Vermilion, and the main Goose Lake line already built. This town will thus have railway facilities that are unsurpassed by any city in the west.

The town has all the usual classes of business represented including three chartered banks, a first class up-to-date hotel, equal of any city, and the citizens generally are progressive and alive to the possibilities for the future of their town. Splendid crops have been raised in this district in 1913.

Population, 1913—750

HOBBEMA

(See Hobbema Indian Agency)

HOBBEMA INDIAN AGENCY

This agency comprises four Indian
Reserves aggregating 76,420 acres.
It is located in Tps 44 and 45, Rgs 23,
24, and 25, west of the 4th Mer, in
the Beaver Hills and within half a
mile of Hobbema. Situated on the Cal-
gary-Edmonton branch of the C P R.
It is watered principally by the Battle
River which encompasses its southern
and eastern boundaries.

PIONEER FIRM
IN CITY

**NORTH WEST
REAL ESTATE CO. LTD.**

714 2nd St. E.
OPP CITY HALL
CALGARY, CANADA

The chief feature of the reserve is
a heavily wooded ridge called Bear's
Hill. There are muskegs and con-
extensive hay meadows, chiefly at
siderable low swampy grounds, with
Battle River Lake. The soil is of
choice quality. The Bear's Hill con-
tains large quantities of spruce and
poplar. The eastern portion is chief-
ly prairie with occasional bluffs of
poplar and clumps of willow. Hob-
bema is the nearest railway station
and post office. Nearest telegraph
office Wetaskiwin 10 miles. Mails
tri-weekly.

The Indian population is 776. The
government officials are

INNISFAIL

An incorporated town on the Edmonton branch of the C P R, 77 miles north of Calgary. Located on Sec 21, Tp 85, Rg 28, west of the 4th Mer, in the electoral division of Red Deer. Has government creamery, 2 chop mills, 1 weekly newspaper, 2 chartered banks, 1 brick manufacturing plant, public school and 5 churches, electric light municipally owned and operated. First class fire brigade and equipment. Is the centre of a thriving mixed farming district, 75 miles east of the Foothills of the Rocky Mountains. The land is well watered and is of the very best quality. The soil is a black vegetable mould from 18 inches to three feet in depth, with a clay sub-soil, and an entire absence of rocks and stones. Ranching has always been one of the main industries in this district. The outline of the country, its hills, plains, timber and water, and the abundance of wild hay, present conditions that are highly favorable. Four daily mails.

LAGGAN

A station on the main line of the C P R on Sec 28, Tp 28, Rg 18, west of the 5th Mer, in the electoral division of Calgary, 117 miles west of Calgary, 525 east of Vancouver and 274 east of Kamloops. It is 6 miles east of the summit of Rocky Mountains (the British Columbia boundary line)

Laggan is one of the popular summer resorts in the Rocky Mountains Park of Canada for tourists and mountaineers. The Chalet at Lake Louise is at an altitude of 5,643 feet above sea level. The greatest peaks

REAL ESTATE AND INSURANCE DEPTS.

BANKERS CANADIAN BANK OF COMMERCE
LONDON OFFICE: 8 WATERLOO PLACE

Calgary Office, Dominion Bank Bldg. Phone M. 4060

and glaciers yet discovered in the Rockies are near the Bow River Lakes north of Laggan. Telephone connection from station to Chalet and also with Field Hotel

Laggan is the chief starting point for the great hunting district between the Rocky Mountains and Jasper Park which is at present attracting the attention of the tourist sportsman the world over. Increased accommodation at the Canadian Pacific Railway's Chalet 3 miles south of Laggan at the world-famed Lake Louise, makes this place of great interest to the travelling public. Wagon road extends from Chalet to Moraine Lake and Valley of the Ten Peaks, distance 9 miles, new trails in course of construction to Bow Lakes and Pipestone Pass. Trails to Pharrigan Lakes, north of Laggan, distance 5 miles and to Hector and Lake O'Hara, southwest of Laggan, distance 18 miles. Good fishing in Bow Lakes and lakes in valley of Ten Peaks. Game protected, as district is in the Rocky Mountains Park of Canada. Alpine Club of Canada holds annual camp at Sherbrooke Lake north of Hector Sliding July 1911 and thus greatly assists in making this district known. Good deposits of unworked copper in this district. Increased accommodation at C P Chalet, 150 rooms. Mails daily.

GAZETTEER AND DIRECTORY

Lethbridge 767

City of Lethbridge

An incorporated city (May 9, 1906), on the Crow's Nest line of the Canadian Pacific Railway, 762 miles west of Winnipeg, 48 miles due north of the international boundary.

It is situated on Sec 31, Tp 8, Rg 21, west of the 4th Meridian, at an altitude of 2984 feet above sea level and 307 feet above the river level, in the centre of Sunny Southern Alberta of which it is the commercial centre, the home of "Alberta Red" wheat which has made this district famous. It is also the centre of the famous Southern Alberta coal fields and the distributing point for the Crow's Nest Pass coal mining territory.

The city owns its own electric light and power plant, also the water and sewerage systems, street railway and coal mines.

It is the headquarters of the district court and the district judge resides here. Supreme court sittings are held here regularly.

It is the seat of the Dominion lands office for the district.

It is the headquarters of K Division Royal North West Mounted Police.

It is the chief customs port of Southern Alberta.

The climate is ideal and there is very little winter.

The C P R are now building the Weyburn-Lethbridge line, which will put Lethbridge on the shortest line from coast to coast.

The C P R viaduct is the longest high railway bridge in the world—over one mile long and 307 feet high.

The Canadian Northern has a charter to build to Lethbridge, as also has the Grand Trunk Pacific.

At Lethbridge are the Galt coal mines, the greatest domestic coal producing mines in Western Canada. Last year they mined 386 000 tons.

Coal sells at \$4.25 a ton, delivered in Lethbridge. It can be purchased at the mine by farmers at \$3.25 a ton.

Lethbridge is the industrial centre of Southern Alberta.

It has a number of large wholesale houses and jobbing concerns.

Two brickyards with an annual output of 7,000,000 bricks.

A \$2,000,000 brewery plant.

An iron works.

Two flour mills with a daily capacity of 625 barrels.

Steam laundry.

Two large and several smaller planing mills and sash and door factories.

A cigar factory.

And numerous other industries.

AMERICAN PLAN 1000 STREET Edmonton

Lethbridge cannot be mentioned without reference to its magnificent square, occupying four whole blocks, 10 acres in extent, bounded on the north by the C P R tracks and on the other sides by the business section of the city. Surrounded by trees it affords great pleasure to the people of the city.

The electric light plant was entirely rebuilt at a new site beside the present water works pumping station. A new fire proof building constructed and two new boilers, one new 8000 kilowatt generating set and one new 2,000 000 gallon per day water works pump installed in addition to the existing boilers and machinery.

PLAN

FIRST
STREET Edmonton

LLOYDMINSTER

An incorporated town and a village, each having their separate public bodies, on the main line of the C N R. 551 miles west of Winnipeg 85 miles west of North Battleford and 170 miles east of Edmonton. The town is located directly on the 4th meridian, the boundary line between the provinces of Alberta and Saskatchewan, and lies equally in each. Three surveys have been made of the town limits, one for Alberta, one for Saskatchewan and one for the line. It is situated in Tp 50, Rg 28, west of the 3rd Mer. in the electoral division of Lloydminster, province of Saskatchewan, and in Tp 50, Rg 1, west of the 4th Mer. in the electoral division of Victoria, province of Alberta.

Lloydminster is the market town for a splendid agricultural section and has up-to-date buildings and stores of all kinds, lumber yards, machinery and implement houses, an electric light and power plant, 3 grain elevators, a flour mill (daily capacity 125 bbls) a government creamery, 2 banks, 3 hotels, 2 graded schools, a weekly newspaper, churches of all the leading denominations, telegraph and local and long distance telephone service. Mails daily

HENDERSON'S ALBERTA

Macleod

MACLEOD

(See also Blood Reserve)

An incorporated town (1893) situated on the Old Man's River, on Sec 13, Tp 3, Rg 26, west of 4th Mer, 106 miles south of Calgary, the terminus of Macleod branch of C P R on the main line of the Crow's Nest Pass Division of C P R. It is anticipated that the entrance of the C N R and G T P will make Macleod a divisional point for these two railways. Headquarters "D" Division R N W M P Macleod represents the judicial district of Southern Alberta and is the residence of supreme court judge. It is also divisional point for C P R Macleod branch.

Macleod is the centre of a very fertile grain growing section and the natural distributing point for the Crow's Nest country. Has municipal water, light and sewerage systems.

Leaping to Cityhood

As far back as the early seventies when the greater part of the now famous West was peopled with Indians, Adventurers, Traders and lawless characters of every description, those who kept in touch with daily happenings read and heard frequently of a place called Fort Macleod. Later on, children poring over their books at school or at home, read with interest of pioneer days and hardships at the same historic old fort. Years passed, however, and with the passing of the years there passed too, many of the old places now famous in history. It was not so, however with old Fort Macleod the years brought changes and gradually the old fort threw off the garb that it had worn as a typical Western cattle town. A renovation in appearance and customs became evident but the old town remained conspicuously on the map. The descriptive adjective "Fort" was relegated to the has-been

heap and now after the lapse of almost half a century, Macleod, Alberta, is forging rapidly to the front as a coming industrial and railway centre to which the boon of cityhood cannot now be long denied.

Macleod, unlike the majority of Western towns has never had a boom, but this year it is expected that tradition will be smashed, and the town will leap to the front as it has never done before. Besides being the Divisional Point on the Crow's Nest branch of the C P R, Macleod will in the near future be the divisional point of the C N R and G T P and its transportation facilities will then be unexcelled. Situated as it is now at the very entrance of the Crow's Nest Pass of which it is the only logical distributing point, Macleod's geographical position is ideal while the wealthy mixed farming district around it, makes it a suitable place for settlement.

In the whole of Canada no better laid out town can be found anywhere as the streets and side-walks of Macleod were posited with an eye more to the future than the present. The buildings were also constructed accordingly so that the town is at any time prepared to put on the garb of cityhood. New buildings are being constantly thrown up and arrangements have been made for the erection of a city hall (\$100,000); Land Titles Office (\$50,000); Post Office (\$75,000); and two new churches and schools, which when completed will add a touch of grandeur to a city which is as yet only embryonic.

Medicine Hat

GAZETTEER AND DIRECTORY

Medicine Hat 827

City of Medicine Hat

An incorporated city (June 9, 1906) delightfully situated in a picturesque spot on the banks of the South Saskatchewan river at the crossing of the main line of the C.P.R. Is located on Sec 31 Tp 12, Rg 5, west of the 4th Mer, in the electoral division of Medicine Hat, 860 miles west of Winnipeg and 800 miles east of Vancouver.

The city is thoroughly modern and up-to-date in every way having graded and well paved streets, sewerage and water supply systems both for fire protection and for domestic use. One of the greatest advantages Medicine Hat has over her sister cities is the inexhaustible flow from her 21 natural gas wells, which serve for lighting and giving heat and power to the city. The average pressure of these wells is 600 lbs. per square inch, supplying the enormous amount of 3,000,000 cubic feet of gas per day. For domestic purposes the gas is supplied at 15 cents per 1,000 cubic feet and for manufacturers at 5 cents. Medicine Hat is thus blessed with the essentials for a large manufacturing and commercial element.

In addition a resource of "power" is at hand in the undeveloped coal areas which lie in the vicinity.

The locality is favored as being one of the greatest cattle and sheep raising districts of the west. It would be difficult to discover anywhere finer conditions for successful mixed farming than exist here. The climate is conducive to health, the city being situated at a mean altitude of 2171 feet above sea level. The snowfall is lighter, the temperature more equable and the winter season shorter in Medicine Hat and district than any where else in Canada east of the Rocky Mountains. The Chinook winds which periodically prevail, quickly change the climate from winter to summer temperature in a few hours. The city is protected by the surrounding hills which shelter it on all sides.

In order to further enhance the fertility of the soil and to guarantee a crop irrespective of rainfall, a complete system of irrigation canals is in course of engineering in Alberta. A veritable network of canals permeates the section of country bordered on the east by Medicine Hat, on the north and west by Calgary and on the south by the Lethbridge district. The Southern Alberta Land Company, Ltd. (an English organization), holds 600,000 acres for irrigation purposes within this territory. Their immense ditch or channel will find water for a

AMERICAN PLAN FIRST STREET Edmonton

large number of farmers who have already begun to assemble.

Medicine Hat is one of the most important divisional points on the western lines of the Canadian Pacific Railway, being the headquarters for the Crow's Nest section. The round-house and workshops employ a large force of men, the monthly payroll at present reaching \$200,000. The railway crosses the South Saskatchewan river here on a magnificent steel bridge one of the longest of its kind in the west, the river being about 1200 feet wide at this point.

The capitalization of the industries already located, amounts to over \$3,000,000, while further concerns, with aggregate capital of \$1½ millions are preparing to locate here.

The city has large public buildings and stores of every kind, hotels, lumber and building materials yards, implement and machinery houses, grain elevators, planing mills, brick yards, coal mines, stone quarries, abattoir, and packing plant, as well as two very large flour mills, potteries, roller mills etc. The payroll of the City is estimated at \$4,000,000 per annum. It has also two newspapers, telegraph service with all parts of the Dominion, local telephone service with long distance connections to all parts of the Province, two large public schools, a high school and collegiate, a well equipped public hospital and seven churches.

OKOTOKS

An incorporated town (1904) on the Macleod branch of the C P R, 27 miles south of Calgary. It is located on the north side of Sheep Creek at the crossing of the government road, on Sec 23, Tp 20, Rg 29, west of the 4th Mer. in the electoral division of Macleod. The town has good modern buildings, stores of various kinds, lumber yards, implement and machinery houses, flour mill, grain elevator, two chartered banks, one weekly newspaper "Review," a graded public school and high school and five churches. There is a local rural and long distance telephone service and an electric light plant which furnishes light for both street and domestic purposes, and natural gas. The surrounding district is a farming and ranching country, the chief grain product being winter wheat.

Onion Lake Agency

GAZETTEER AND DIRECTORY

Onoway 879

ONION LAKE AGENCY

This reserve is situated about 8 miles northwest of Ft. Pitt on the trail to Edmonton via Onion Lake, and 12 miles north of Hewitt's Landing on the North Saskatchewan River. It lies in Tps 54 and 55, Rgs 27 and 28, west of the 3rd Mer, and Rg 1 west of the 4th Mer, in the electoral division of Lloydminster, being thus in the provinces of Alberta and Saskatchewan. It comprises an area of 22 square miles, containing 14,080 acres. The surface is rolling and interspersed with bluffs of poplar and shrubs, alternating with lakes and ponds. The northern portion has valuable hay marshes. The soil is good but of light quality. Onion Lake is the nearest postoffice and Lloydminster 30 miles south on the C.N.R. is the nearest railway station. There are 27 families.

Peace River Crossing GAZETTEER AND DIRECTORY Peace River Crossing 887

PEACE RIVER CROSSING

A post office and settlement on the Peace River, on Sec. 29, Tp. 83, Rg. 21, halfway between Hudson's Hope and Fort Vermilion, 87 miles from Lesser Slave Lake by wagon road.

Strictly speaking, the Peace River territory is the stretch of country extending some 65 miles on each side of the Peace River and reaching from Fort Vermilion to the Rock Mountains—a distance of 600 miles of good navigable waterway at present served by two paddle steamers plying between Fort Vermilion and Hudson's Hope. This comprises an area of over 26,000 square miles rich in minerals and containing good merchantable timber. It also contains thousands of acres of the finest agricultural land in Canada with a climate highly favorable to the growth of all the common cereals and the rearing of live stock. Of this vast territory, Peace River Crossing is the geographical centre, and with its natural transportation advantages, it should rapidly spring into importance as a great distributing point and the commercial capital of the north.

Two saw mills and one flour mill in operation. All small outfits and

R. G. Barnes & Co.
Stockbrokers
Stocks Bonds Debentures
Calgary - Alberta

quite inadequate to supply the local demand for sawn lumber and flour. Not unlikely that two new saw mills at least will commence operations early in 1914.

Up to the present, Peace River Crossing has been reached by way of the C. N. R. to Athabasca, from thence by river and lake steamboats to Grouard, a distance of some 200 miles, and from thence by the overland trail to Peace River Crossing, a distance of 90 miles. In the winter time the same route is followed, but of course, all traffic is by way of teams over the ice from Athabasca. We are assured, however, that the E. D. & B. C. Railway will run mixed passenger and freight trains to Mirror Landing on the Athabasca River by spring of 1914, which will bring Peace River Crossing 80 miles nearer to the railway transportation. The same railway is at present pushing construction ahead with a view to reaching within 20 miles of Peace River Crossing by the fall of 1914. By one year later it is expected that they will have established Peace River Crossing as the terminus of their line. The year 1915 will undoubtedly mark a

**Shetland
Ponies**

Medicine Hat, Alta.

new era in the north country, and it is reasonable to expect that the development when it starts will be more rapid than that shown by the history of any other part of Canada.
Mails semi-weekly by stage.

PEIGAN INDIAN AGENCY

(See also Brocket)

This reserve is situated on Crow Lodge Creek and Old Man's River, near the foot of the Porcupine Hills about 6 miles southwest of Macleod. It contains approximately 145 sq miles or 93,000 acres. There are about 450 Indians and 50 whites within and closely adjacent to the reserve. "Peigan" station is within the reserve as well as Brocket. "Peigan" is 10 miles south westerly from Macleod and Brocket 22 miles.

It extends from Rg. 27 west to Rg. 29 and from Tp. 6 north to Tp. 8, west of the 4th Mer. The country is partly high rolling prairie of clay loam, large fine hay meadows and river bottoms of dry whitish clay which produces good crops of roots and grains. The reserve is watered by Old Man's River, Olsen, Beaver and Crow Lodge Creeks and several large running springs. It is one of the finest cattle ranges in the northwest.

It has Anglican mission and school and Roman Catholic mission, school and convent. Brocket on the Crows Nest branch of the C. P. R. is the nearest railway station and post office. Has 193 families. The government officials are:

PINCHER CREEK

An incorporated town $2\frac{1}{2}$ miles south of the C P R station called Pincher, on Sec 22, Tp 6, Rg 30, west of 4th Mer, in the electoral division of Macleod, on the Crow's Nest branch of the C P R, 173 miles west of Dunmore Junction and 29 miles west of Macleod. Pincher Creek is one of the oldest and best settled ranching districts in Alberta. Recently the ranchers have been putting in winter wheat and the acreage in the district is increasing rapidly each year, all conditions being favorable for good crops. Has public school, Catholic convent, a public hospital, 2 chartered banks, a weekly newspaper, electric light system and waterworks, water being obtained from the creek, $2\frac{1}{2}$ miles up and brought into the town by gravity. Pincher Creek is the business town for the following local points, Peigan Reserve (7 miles east), Dry Forks (9 miles south), Summer-view (10 miles north), Mountain Hill (12 miles northwest), Fishburn (12 miles southeast) and Yarrow (20 miles south).

RAYMOND

An incorporated town (July 1st, 1903), on the C P R 27 miles from Lethbridge.

The town is situated on Sec 8, Tp 6, Rg 20, west of 4th Mer, in the electoral division of Medicine Hat, and is the centre for a well settled agricultural and ranching country.

The Knight Sugar Co., Ltd is the principal industry. The beet sugar factory has a capacity of 400 tons per day. The company owns about 400,000 acres of farm and ranch land, and 12,000 head of cattle, ranging in Milk River Ridge. The cultivation of the sugar beet is past the experimental stage in Alberta. As high as \$100 per acre was realized in some instances.

There is a telephone connection with Lethbridge, Sterling (7 miles east), Magrath (12 miles west) and Cardston, Welling settlement (6 miles northwest) is tributary to Raymond.

Has two chartered banks, weekly newspaper and public school
Population 900
Elevator capacity 100,000 bushels
Flour mill capacity—150 bbls daily
Postmaster—L D King

GAZETTEER AND DIRECTORY

Redcliff 919

REDCLIFF

Beautifully situated on the long stretch of level prairie country on the north banks of the South Saskatchewan and overlooking the city of Medicine Hat, 7 miles distant. A station on the main line of the C. P. R., 667 miles west of Winnipeg and 173 miles east of Calgary.

Is practically the commencement of country served by the irrigation departments of the Southern Alberta Land Company, a wealthy English corporation, and wherein are now settled a considerable number of farmers.

The greatest asset to the town is the unlimited supply of natural gas which serves the already large stream of manufacturers who have located plants there, such as iron foundries, a rolling mill, one of the most up-to-date glass factories (last named 100 employees), a clay products company, two other large brick plants, motor works at present building motor trucks and buses, hat and cap factory, bedding factory, sash and door mills, furniture factory and others.

The most remarkable growth of any town in Alberta, Redcliff has immediately risen to be a manufacturing town of considerable importance.

Beside supporting that enviable position through the gas deposits, there is an enormous reserve of lignite coal which is now being mined for distribution outside and which will tend in the future to further enhance the prospects of Redcliff.

Among the institutions of this new town is a live Board of Trade which supplies all information asked for, modern schools, churches, etc. A good water and sewage system has been installed.

GAZETTEER AND DIRECTORY

Red Deer 925

RED DEER

An incorporated city (1913) on the Edmonton branch of the C P R 84 miles north of Calgary and 88 miles south of Edmonton. It is located on Sees 16-17, Tp 38, Rg 27, west of the 4th Meridian, in the electoral division of Red Deer. The town which was first settled in 1891 is the centre of a large and well settled country devoted to farming and stock raising. Its situation on the Red Deer River is beautiful, the surrounding slopes being wooded with spruce, poplar and other varieties of timber leading to the level and rolling open prairies. Has 6 banks, two weekly newspapers, 5 churches, public schools and a thoroughly installed up-to-date high school, a well equipped public hospital, 1 saw mill with capacity of 45,000 feet per day, 2 brickyards with modern plants, capacity 115,000 per day, a government creamery and the provincial headquarters of the Laurentia Milk Co Ltd., also complete waterworks and sewerage system.

A private company furnishes electric light and power and telephone

H. B. Macdonald & Co.
Insurance
Investments
Beveridge Building - Calgary

service by steam plant which is also used as a pump station for city waterworks. Has city and rural telephone exchange and long distance connection both with Calgary and Edmonton and all intermediate points.

Red Deer enjoys an enviable reputation in dairying. One-half of the entire cheese output of the Province is made in the Red Deer district, and six creameries have a large annual output of butter. During the last year there has been a brisk demand for milk and cream to supply the cities of Calgary and Edmonton, and the farmers have been receiving high prices (\$1.80 to \$2.20) for all they could produce. These markets will be available for years, and as the good grass, pure air and cool nights make easy the production and handling of dairy products, much money will be made by the farmers of the district.

Spring usually opens in March, and the farmer gets on the land, but there is not much growth until May. Then and in June and July come the rains, and with the long hours of sunshine—18 out of 24 at midsummer—grass grain and roots leap ahead at a rate that would scarcely be credited.

Western Motors Limited

Phones: W.1390-W.1886
725 11th Ave West Calgary, Alta.

Wheat and oats mature in 86 to 100 days and barley in 70 to 85 days.

Red Deer is the freight terminal of the Red Deer division of the Canadian Pacific Railway. All freight trains break bulk here and new trains are made up for Strathcona, for the Lacombe branch, for the Wetaskiwin branch and for Calgary.

There is now building from Moose Jaw northwest through Red Deer to the Yellow Head Pass of the Rockies. The Alberta Central Railway, which will be operated by the Canadian Pacific Railway Company, and whose engineering headquarters and divisional yards, covering 200 acres, are located at Red Deer.

1101 STREET Edmonton

GLEICHEN

An incorporated town situate on the main line of the C P R. on Sec 13, Tp 22, Rg 23, west of the 4th Mer., 54 miles east of Calgary.

The surrounding country is stated to be inferior to none for raising cattle, as can be seen from the very large shipments which take place from this point. The land is fairly level with thick herbage. Farmers, too, grow wheat, which is usually dealt with by four elevators, having an approximate capacity of 125,000 bushels.

Grain shipments for 1913 were abnormally heavy at this point, with high averages.

The town has a completely equipped school for its educational progress.

There are no poor in the town, which caters for a large and increasing population outside. Contiguous to Gleichen lie the natural gas wells which supply some of the towns and cities of Southern Alberta with power for lighting and heating purposes.

An efficient fire service is one of the attributes of the town.

Population—1,000

Postmaster—B Ramsbottom

Town Officials:

Mayor—C J Bray
Councillors—W Service, A R Yates, T C Gaudaur, F K McKay, J B Leggatt

SADDLE LAKE INDIAN AGENCY

This reserve is situated north of the North Saskatchewan River in Tps 57 and 58, Rg 10, 11, 12 and 13, west of the 4th Mer and comprises 115 square miles containing about 75,000 acres, in the electoral division of Beaver River. There are several small lakes within its confines, the larger two being Saddle Lake and Duck Lake. The reserve has a frontage of about 6 1/2 miles along the north bank of the North Saskatchewan River, in which section there are fine large poplars with groves of spruce and tamarac. The southeastern portion of the reserve is level and partially wooded with poplar, willow and a few spruce. The northwestern part is undulating and hilly and partially covered with poplar and scrub, with a few hummocks of spruce here and there. There are extensive hay meadows and the lakes and creeks contain good water. The soil is generally a rich black loam with clay sub-soil. Winged game is very plentiful and Saddle Lake abounds in whitefish and pike. The Snake Hills are a prominent feature, rising to an elevation of 800 feet above the river and occupying an area of 6 square miles of splendid grazing land. Nearest railway station Vegreville 50 miles.

Saddle Lake post office at the north-west corner of the reserve is the mailing point and Vegreville about 30 miles south on the C N R is the nearest railway station. There are 122 families. Mails semi-weekly. The government officials are:

Chas E Hughes, Indian agent and postmaster
W E Gullion clerk and farmer
C Whitford interpreter
C B Ingraham telegraph operator

SAWBACK

A siding on C P R main line, 7 miles west of Banff, the nearest express and shipping point.

SAWBRIDGE

A post settlement at the mouth of Lesser Slave River, in the Athabasca country. Located on Sec 7, Tp 73, Rg 6, west of the 5th Mer, in the electoral division of Athabasca. Is 40 miles from the mouth of Little River and 30 miles from Mirror Landing, the nearest railway station and is reached by steamboat in summer and by motor stage in winter. Fishing, farming and ranching are the main industries. There is an abundance of coal, good timber and large areas of blue joint hay, also indications of gold in some of the streams. The scenery on the lake is beautiful, and it affords most exceptional advantages for hunting fishing and boating. There are two hotels, a telegraph office, a R N W M P Barracks, a Roman Catholic church and a number of general and other stores and businesses. Four mails weekly

GAZETTEER AND DIRECTORY

Stettler 875

STETTLER

A town located on Sec 5, Tp 39, Rg 19, west of the 4th Mer, 50 miles east of Lacombe. Is the supply point for a large farming and ranching district, extending for 75 miles south and east, and is tributary to some of the best farming lands in Alberta. The soil in this district is a good heavy black loam, slight mixture of sand, 90 per cent arable, with 40 per cent under cultivation, which is an increase of 15 per cent. In the acreage under cultivation in 1912 over 1911. Farm lands may be purchased at an average of \$20.00 per acre. There were 100,000 bushels of grain shipped from Stettler in 1912. Two hundred new families located in the district, and the town's population increased by 200 during the past twelve months. In 1912 there was erected in Stettler a cigar factory employing ten hands, and a distributing warehouse for farm implements.

On C P R Lacombe to Moose Jaw branch and C N R Vegreville to Calgary line of railway. Has 3 hotels, 2 banks, 2 elevators, and warehouses capacity of elevators 100,000 bushels. Stettler Independent newspaper, flour mill, capacity 100 bbls daily, iron foundry, cigar factory, modern steam laundry, machine repair works, 5 livery stables, 2 lumber yards, 5 churches, \$50,000 public school, 2 opera houses, waterworks and electric lighting plant. There is good shooting in the vicinity. Buffalo Lake nearby is a splendid summer resort.

STONY RESERVE

Three undivided reserves situated at Morley on both sides of the Bow River, partly in the foothills of the Rocky Mountains. It comprises 109 square miles, containing about 70,000 acres. The Bow River runs almost directly through the centre of it and furnishes the main water supply. There are numerous small lakes and springs as well as coulees and also two good-sized lakes of excellent water. North of the Bow River the reserves are hilly and partially wooded with pine, spruce and poplar. There are small tracts of rich arable soil in the hills but most of it is

The Pioneer Firm

Fort George Realty & Securities
Company, Limited

Capital of \$150,000, and a reputation
stands back of every deal

645 First Street, Edmonton

only fit for grazing. The portion of the reserves lying south of the Bow River has ranges of hills rising to an elevation of 800 feet above the river which are thickly wooded with pine, spruce and poplar. There are stretches of level bench land affording rich pasturage and high rolling prairie well adapted for grazing purposes. The main line of the C P R crosses the reserves, just south of the Bow River for a distance of 17 miles. Morley the post office and railway station, is on the C P R just south of the agency post. There are 71 families. The government officials are:

Kennedy Peter interpreter
McKenzie John farmer
Stocken Percy B clerk
Waddy John Wm Indian agent
Wildman Dan blacksmith

STOPPINGTON

A post office on Sec 35, Tp 28, Rg 11, west of the 4th Mer, in the electoral division of Hanna, reached by stage from Parsons. Nearest railway and telegraph office, Coronation, distant 25 miles. Mails tri-weekly.

EXECUTIVE COMMITTEE

W. H. LEE W. E. MURDOCK W. G. TORCHIANA

The Objects of the Association

- FIRST:** The improvement of directories by the interchange of ideas and the exchange of experienced employees.
- SECOND:** The protection of the public against fraudulent advertising schemes operating under the name of directories, and the maintenance of a high standard of excellence and accuracy of information in the publication of directories; thereby maintaining and promoting the confidence of the advertising public in reliable directories; also the securing of permanent employment for competent, industrious canvassers and honest compilers.
- THIRD:** The advancement of the interests of all who may become members hereof.
- FOURTH:** The promotion generally of social, as well as business intercourse among its members.

When considering Investments in Medicine Hat, the Manufacturing City of Alberta, remember

STRATHMORE

A station on the main line of the C P R, 35 miles east of Calgary. Located on Sec 14, Tp 24, Rg 25, west of the 4th Mer, in the electoral division of Calgary. The C P R irrigation works (headquarters for section) embrace the whole of the district. Land is well taken up by settlers who find a ready market for their produce. Poultry raising and market gardens are profitably worked here. There is good train service. Has 2 elevators, capacity 90,000 bushels. A "record" field of oats returned 138 bushels to acre, whilst wheat, in many instances, yielded over 60 bushels in 1913. Mails twice daily.

TABER

A station on the C P R's Crow's Nest line, situate 31 miles east of Lethbridge. Incorporated as a town in 1907, it lies within the precincts of a large coal-bearing area and has 14 mines working, which find employment for over 600 men.

The present assessment roll of the town amounts to \$2,000,00.00 based on the single tax system.

Great wheat crops have been harvested here, while successful borings for natural gas indicate that this power will materially benefit the town in the near future. Has chartered banks, a weekly newspaper, scholastic institution and other useful adjuncts.

VERMILION CHUTES

On Peace River, 50 miles east of Vermilion and 325 miles down river from Peace River Crossing. It is 565 miles to Hudson's Hope, B. C., the head of navigation is reached by stage to Athabasca Landing, boat to Lesser Slave Lake stage to Peace River Crossing, then 300 miles down stream by boat or steamer. The Peace River is three miles wide above the rapids (which are a mile in length) and narrows to a mile in width at the Chutes, where there is a direct waterfall of 12 feet. Nearest telegraph office, Mirror Landing (Athabasca River), distance 500 miles, nearest railway Athabasca, distance 620 miles. Has 3 flour mills, 2 steam saw and shingle mills, 1 water power saw mill and two steamboats. Mails monthly.

Wetaskiwin 1947

WETASKIWIN

An Incorporated (May, 1906) city at the junction of the Edmonton branch of the C. P. R. with the new line from Winnipeg, 152 miles north of Calgary, and 40 miles south of Edmonton on Sec 14, Tp 46 Rg 24, west of 4th Mer in the electoral division of Strathcona. The city comprises all lines of business usual to a progressive town, including 2 weekly newspapers, three chartered banks, 7 churches, 2 public schools, hospital, 6 elevators and flour mill. It is the centre of a large well settled district, where mixed farming and ranching make the community prosperous.

The Wetaskiwin branch of the C. P. R. extending eastward, has opened up an immense tributary fertile territory for settlement. This branch has been extended eastward to Saskatoon and connects with the Kirkella branch, making a through line from Winnipeg.

An electric lighting plant operated by the corporation, supplies light for street, domestic and power uses. Water works have been constructed at a cost of \$90,000, and a sewerage system for a similar amount.

A natural gas well has been recently developed, with a flow sufficient to furnish power for the city's lighting plant and water works. Further development in this direction will be vigorously carried on.

Elevator capacity—210,000 bushels

Population—3,500

City Officials
